Germicidal UV-C PIR Motion Sensor Fixture (GC-MSF)

General Description

Our Germicidal UV-C PIR Motion Sensor Fixture (**GC-MSF**) design provides a safe and effective option to eliminate bacteria, viruses, mold spores and pathogens and disinfect air and surfaces.

Since the UV-C radiation can damage the skin and eyes without proper protection, the applications of the UV-C products should use caution, and this is where our proprietary motion senor is ideal to avoid exposure to the eyes and skin when in use and is unshielded.

The **GC-MSF** will stop immediately when it detects activity. The **GC-MSF** will turn on only when there is no activity for 5 - 10 minutes (adjustable). The PIR is a passive infrared sensor.

When it comes to bacteria and pathogens, your choice of lighting can assist in prevent the spread of illnesses and diseases within your facilities. As the nation continues to strive to stay safe and healthy, the use of germicidal lighting has become an integral feature for many, and our **GC-MSF** can be integrated part of your overall maintenance strategy and well-being of the occupants.

By permanently installing the **GC-MSF** it will assist in providing permanent disinfectant capabilities that can be tied into your lighting control system to ensure scheduled and/or automatic sanitation occurs regularly.

We offer various **GC-MSF** models in power, numbers of tubes to cover areas to fit one's requirement.

Summary

Our Germicidal UV-C PIR Motion Sensor Fixture (**GC-MSF**) design provides a safe and effective option to eliminate bacteria, viruses, mold spores', pathogens and disinfect air and surfaces.

Price $265.00
Quantity price discounts available.

SKU/Item #FSS1021 GC-MSF

Applications

- Hospitals
- Clinics
- Nursing Homes
- Doctor's offices
- Offices
- Educational Institutions
- Homeless Shelters
- Residential Homes

We recommend a 15 Amp 4-Hour In-Wall Push Button Countdown Timer Switch. One time can accommodate up to 10-15 GC-MSF. The GC-MSF should be set on for 30 to 60 minutes to be effective depending on the coverage area.

Model #	Fixture Wattage	NM Measurement	No of Tube	Area Cover	Cost
GCMSF-0302	30W	254	2	200 sq ft	$ 265.00
GCMSF-0602	45W	254	2	300 sq. ft	$ 265.00
GCMSF-0602	60W	254	2	400 sq. ft	$ 265.00
