

# Beautiful Water Features

# Create a unique space with a water feature

Who doesn't want a water feature these days? The peaceful calmness that one gets from watching and listening to running water appeals to everyone. So why not combine this vibrant experience with a practical application?

Leisure Pools® introduces a range of water features that combines with an enclosure for your pool filtration. The rear section of the water feature houses a practical enclosed area for your pool equipment (pump, filter, chlorinator), chemicals, storage of toys and other items you might use with your pool. All neat and tidy, sound proofed and protected from the weather.

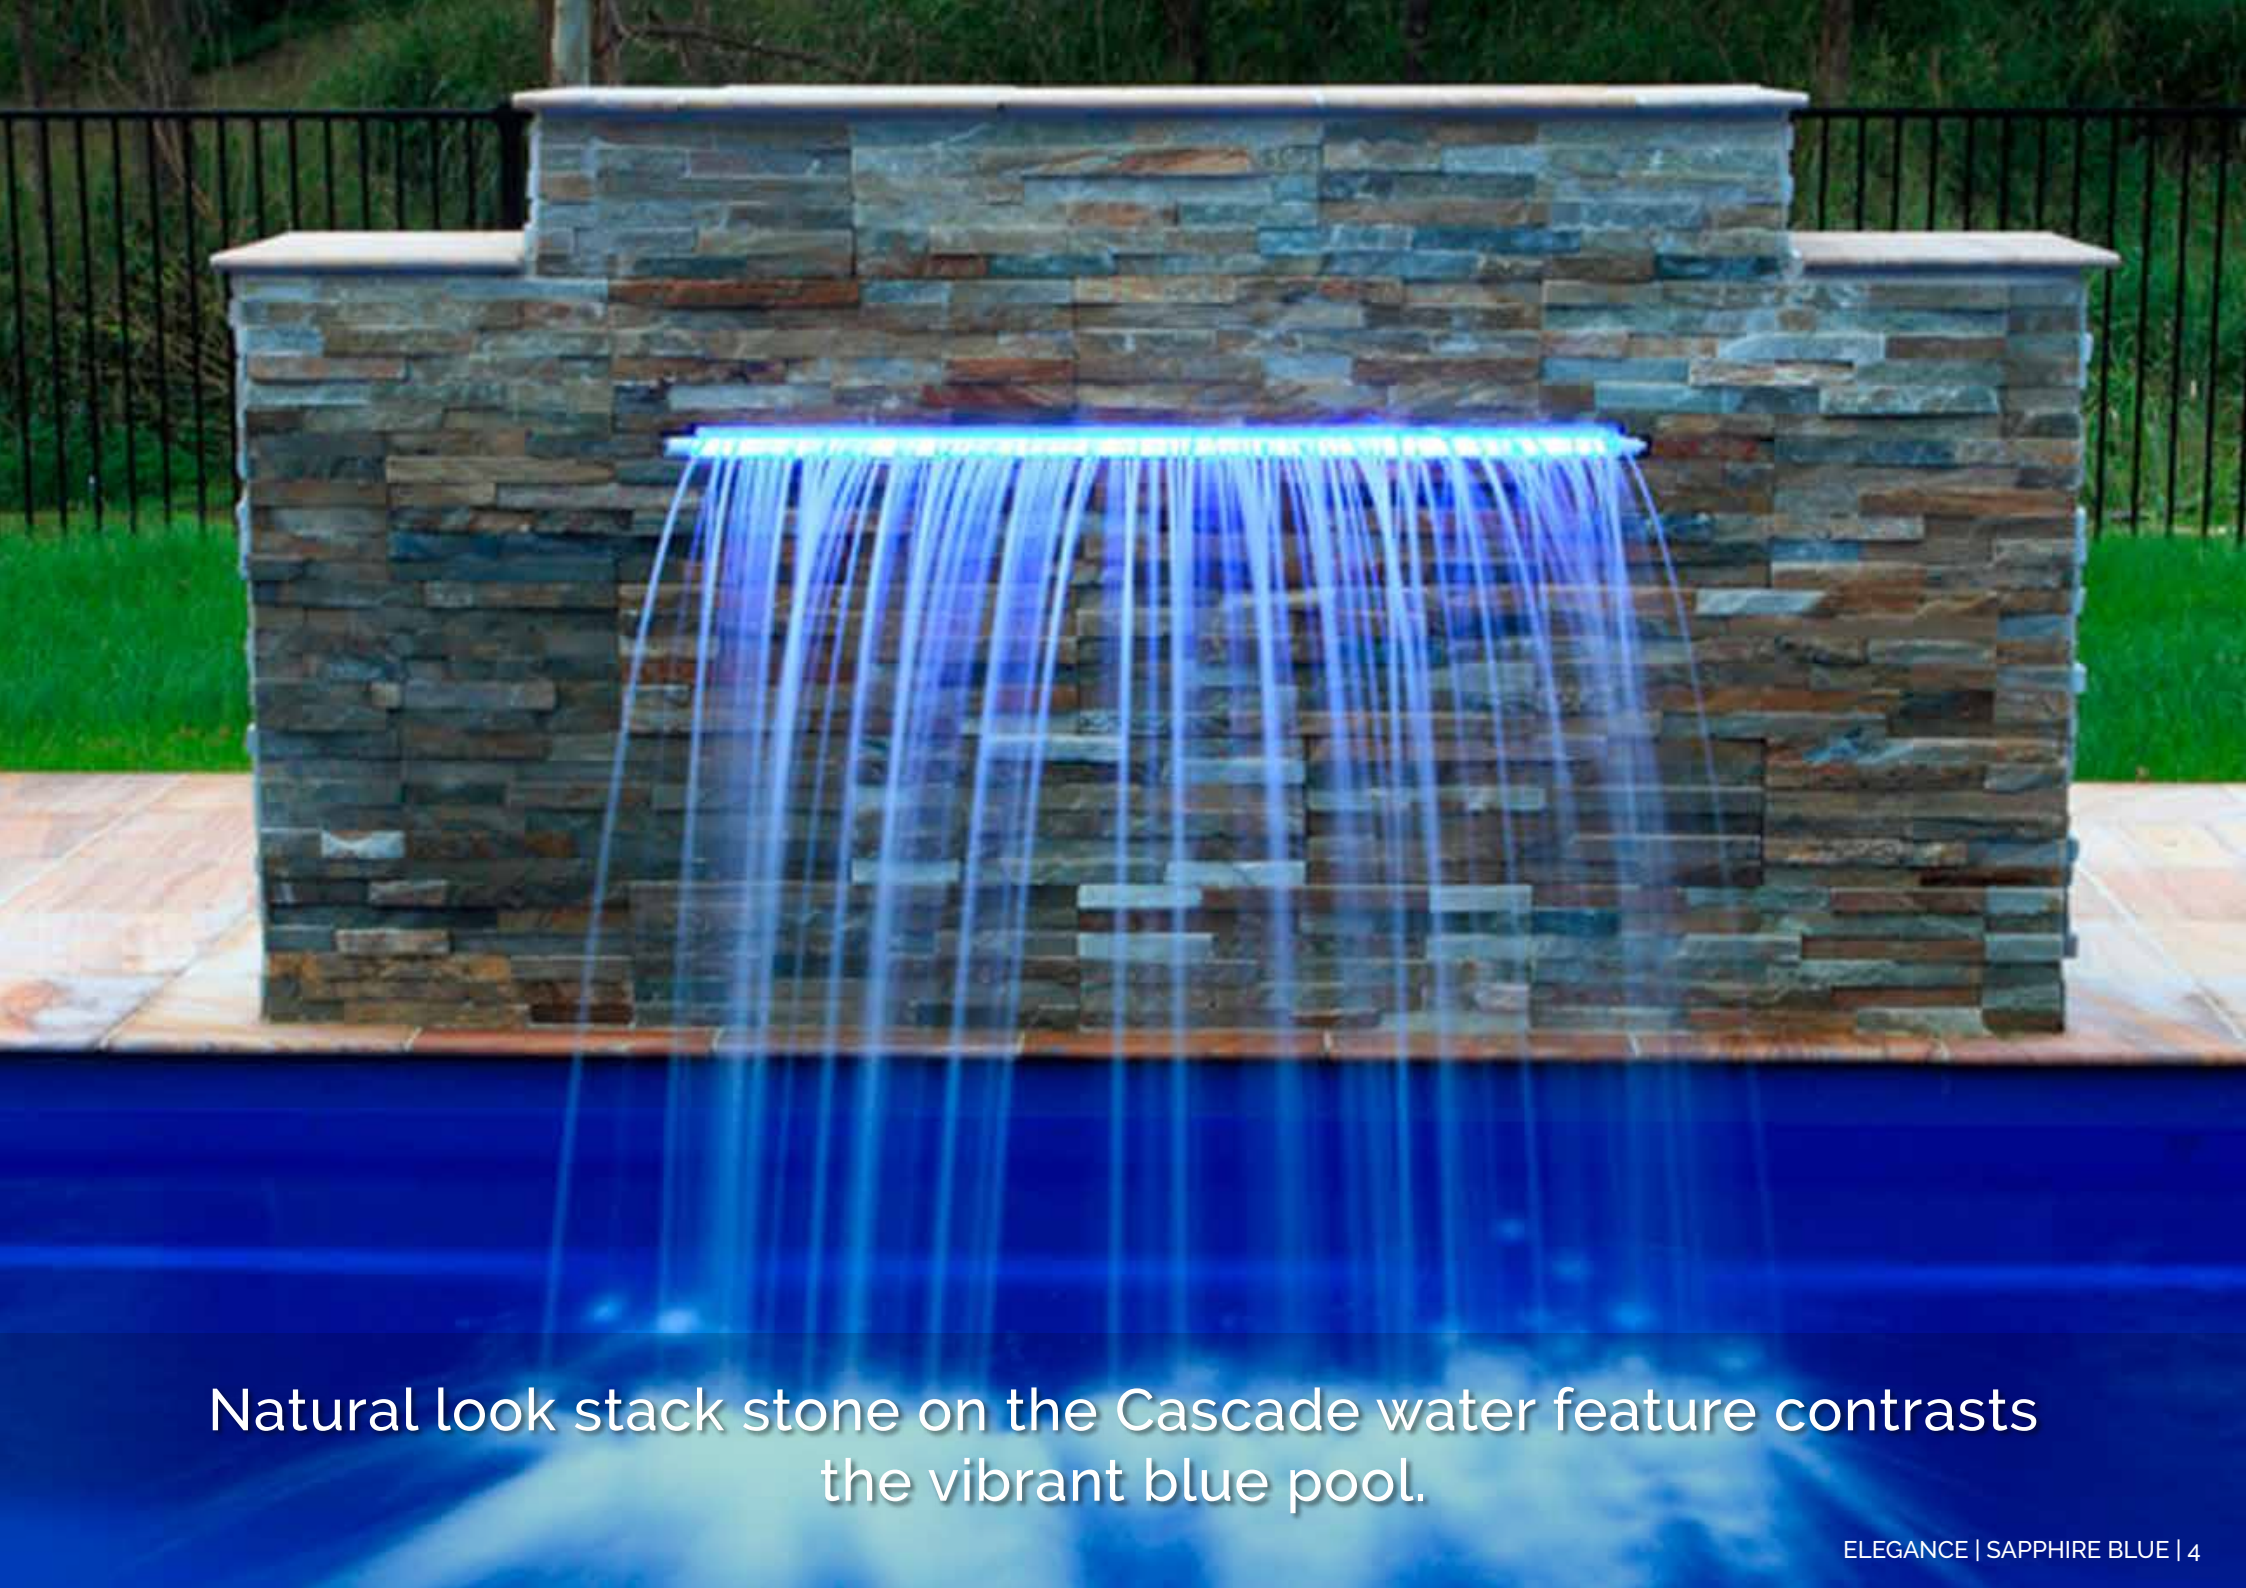

With your filtration being so close to your pool everything works much more efficiently from pumps to pool cleaners. Pool equipment can look a little unsightly at times and it has always been a problem covering it up, protecting it and sound proofing it but now all of these problems are solved with the added benefit of a beautiful water feature.

This stunning Cascade water feature clad with lighter stack stone ties in with the wall features on this pool.

Natural look stack stone on the Cascade water feature contrasts the vibrant blue pool.

Black pattern tiles on this Cascade water feature work in with the wooden feature panels.

The random stack stone water feature has a color tone that compliments the pool paving and water line tile.

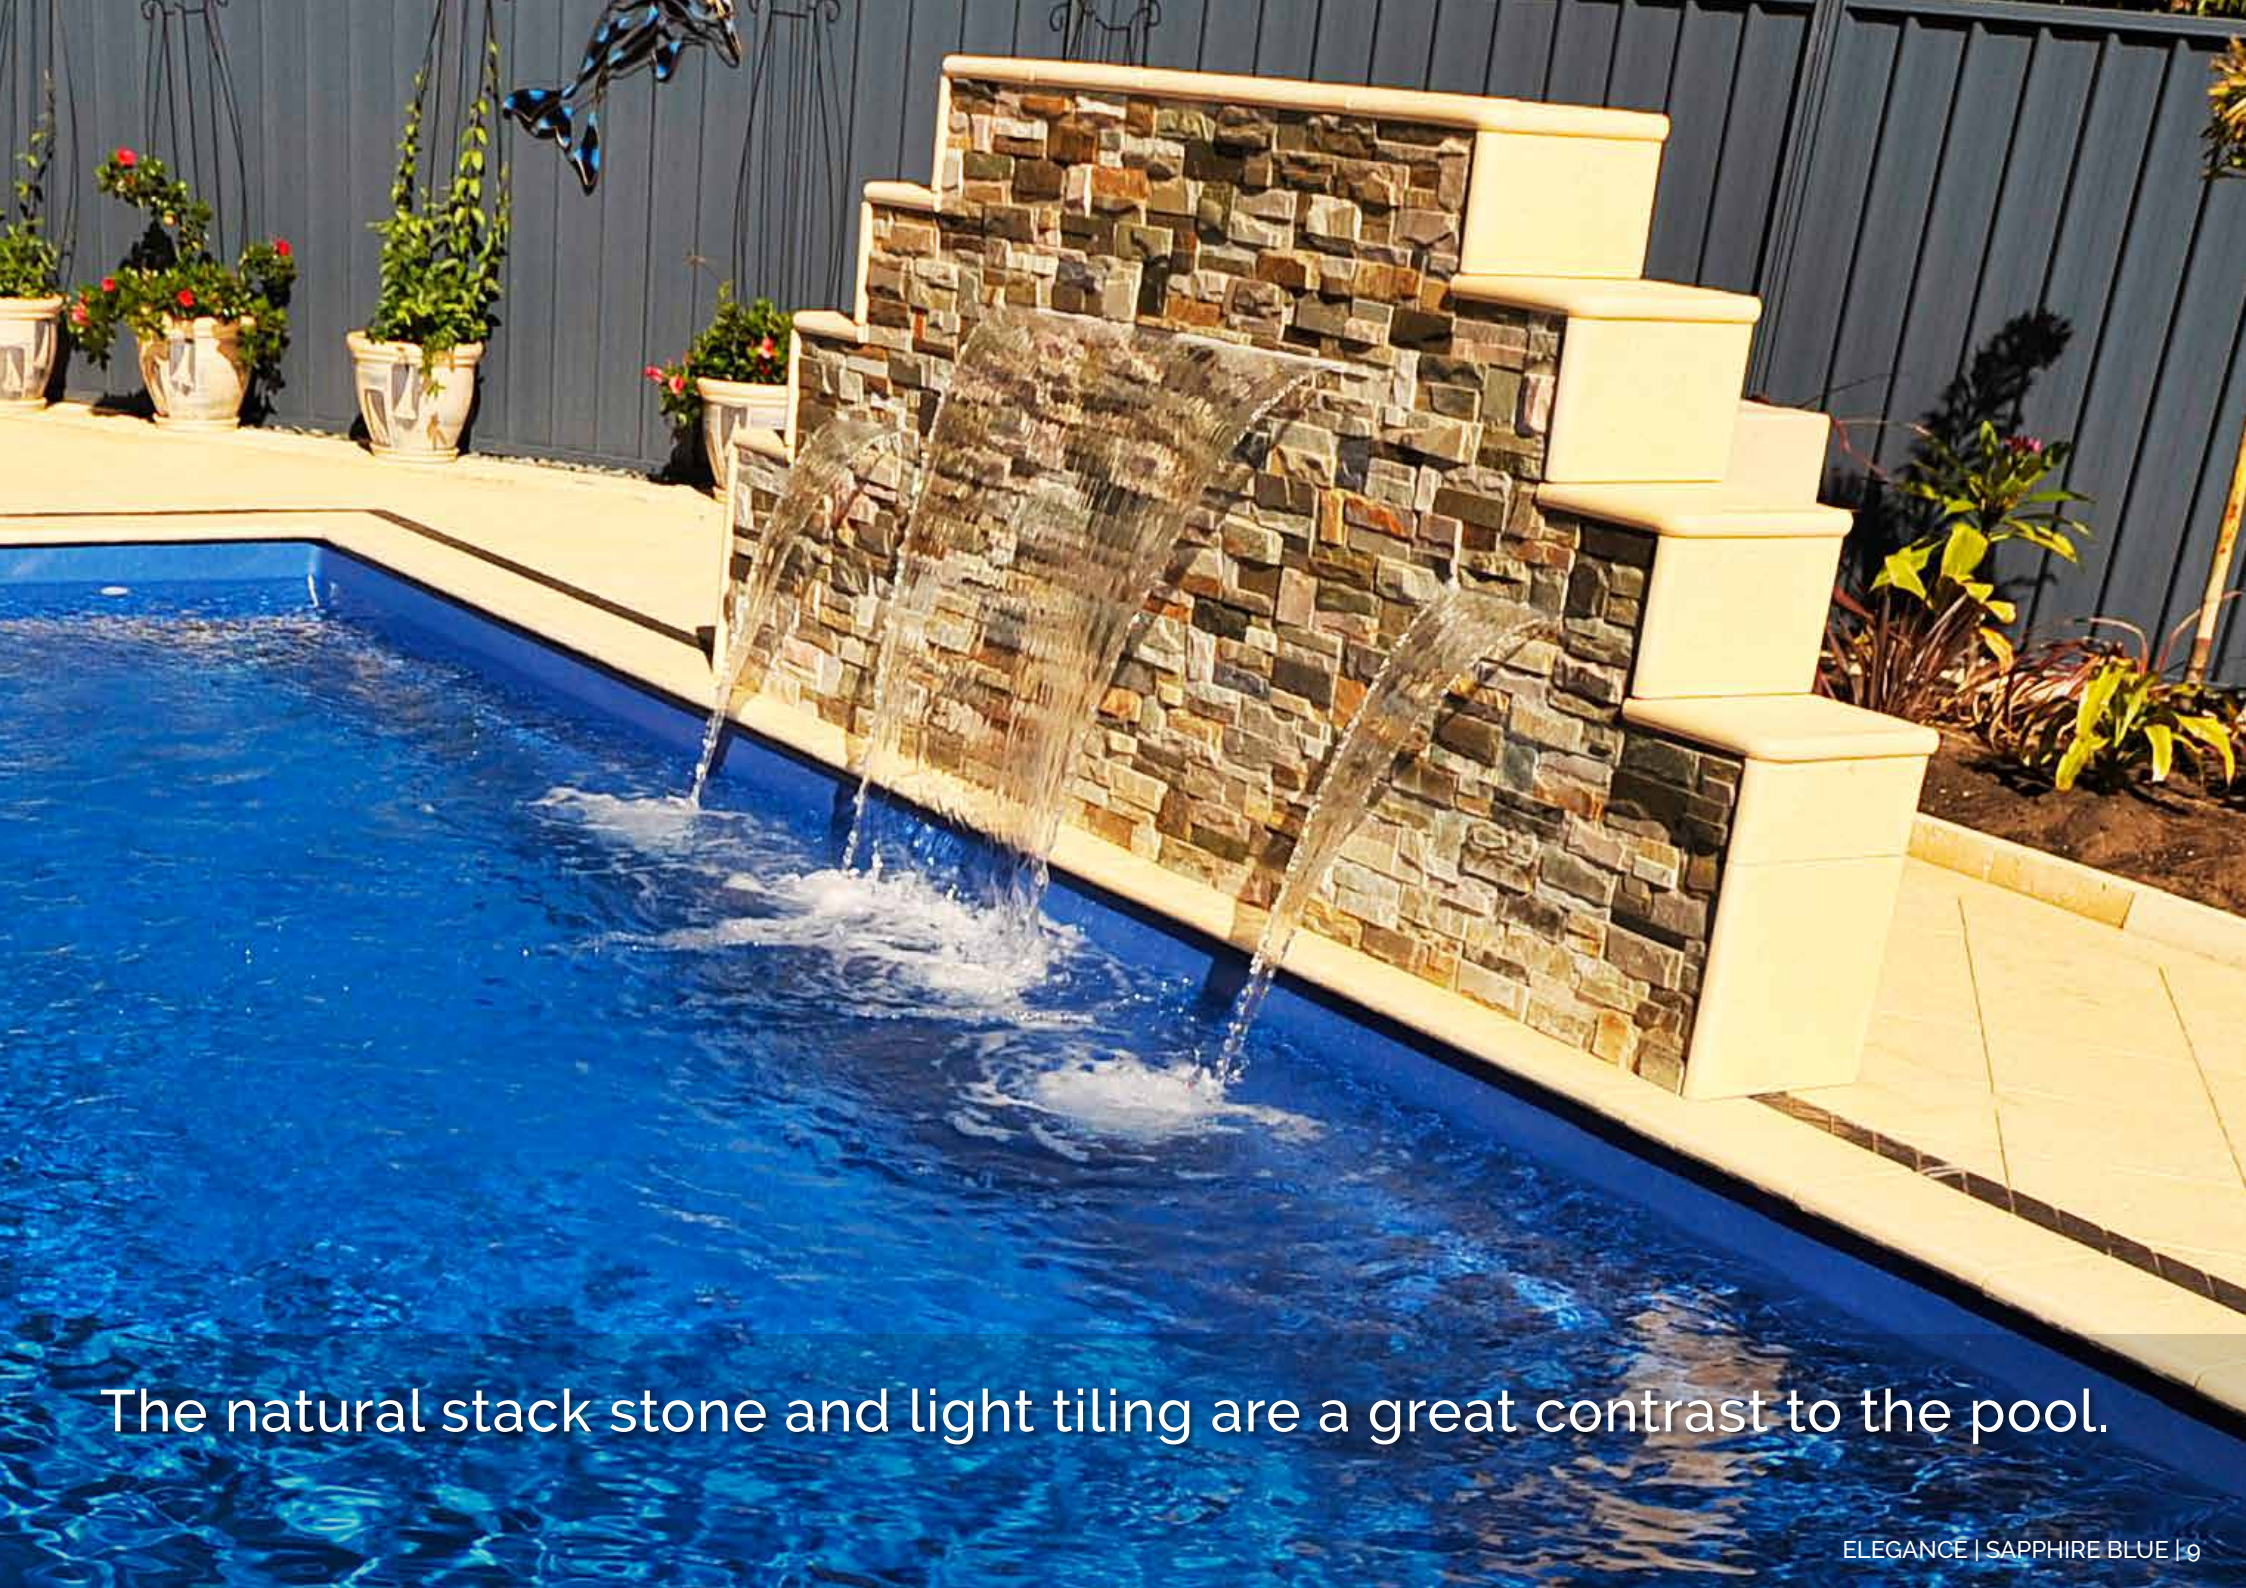

The dark stack stone on this Cascade is striking against the crisp white surroundings.

The Waterwall in desert coloring helps create a festive Caribbean inspired space. Shrubs and gardens only enhance the beauty of the pool.

The natural stack stone and light tiling are a great contrast to the pool.

This stepped water feature with single large sheer descent is a stunning addition to this pool.

Blue tiling on water features has always been a popular color theme.

This water feature, in desert sand, blends nicely with the Crystal Blue Courtyard Roman.

The Serenity sits perfectly at the end of a modern pool design.

The Serenity's mixed curves and straight lines has diverse appeal.

Large rock features work well with our naturally shaped pools.

This rock feature is a focal point of the natural setting.

This rock feature fits perfectly on our Courtyard Roman.

An amazing rock feature playground.

Rock features give the effect of being in nature.

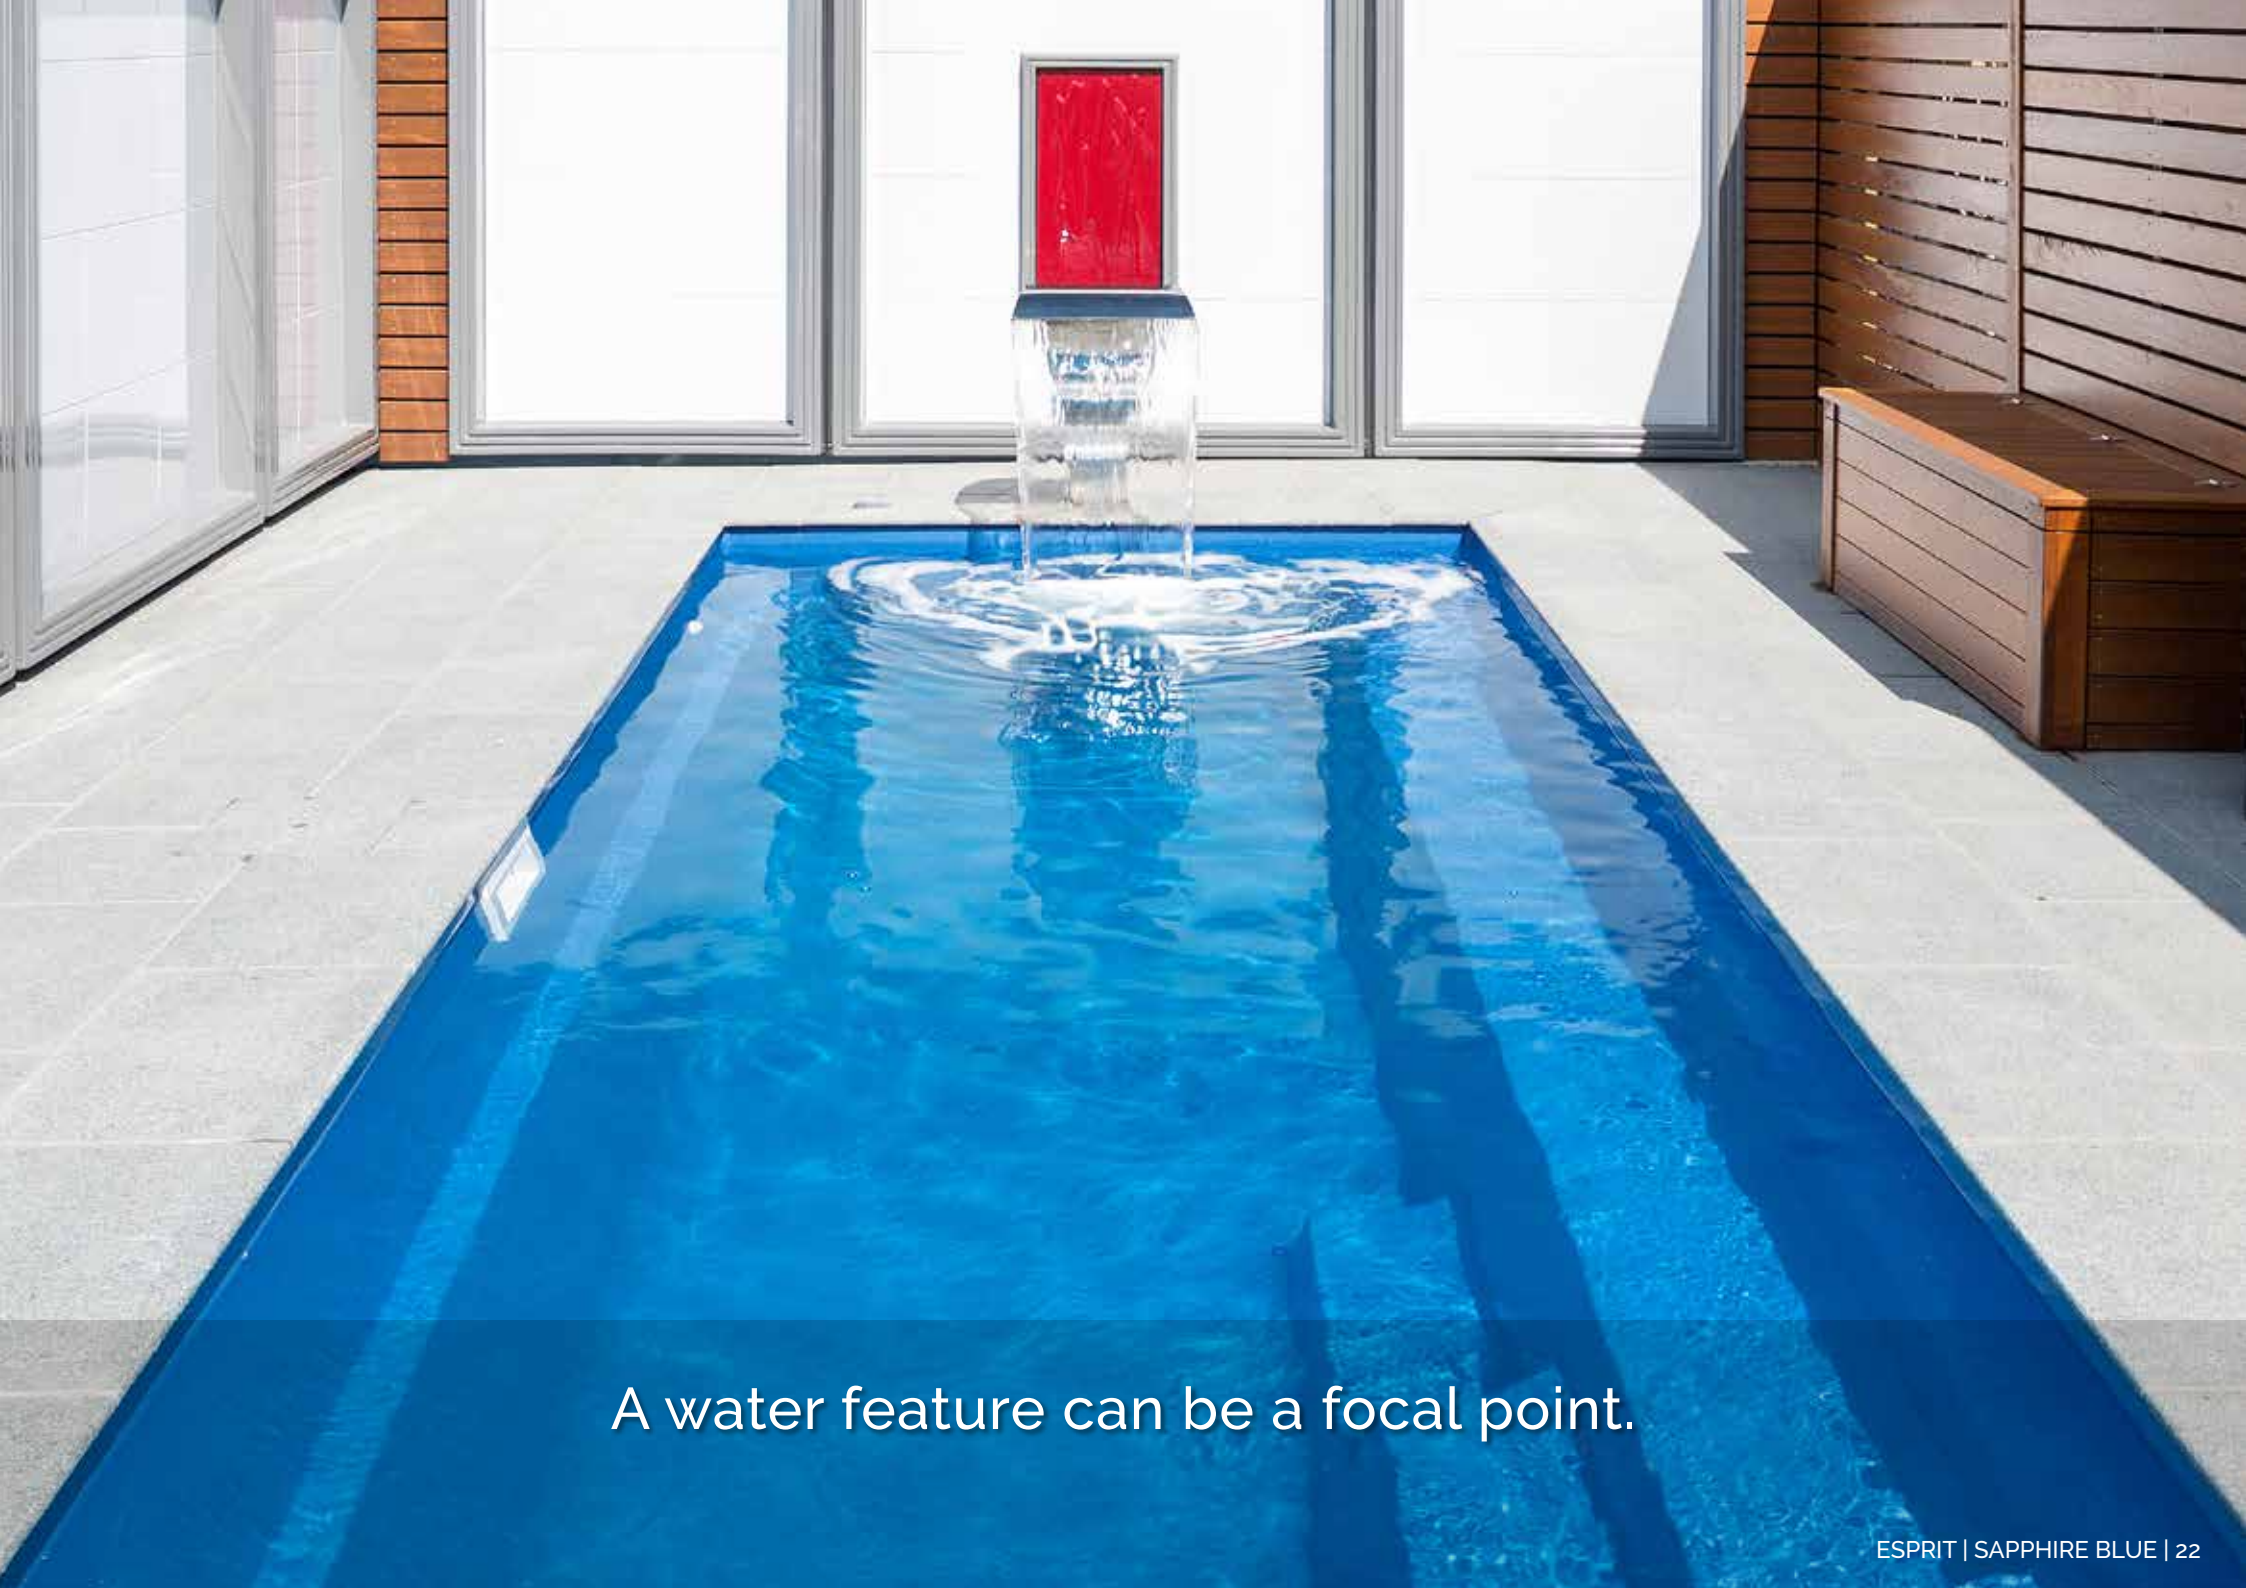

A cascading rock waterfall makes a strong natural feature  
at the end of this Riviera pool.

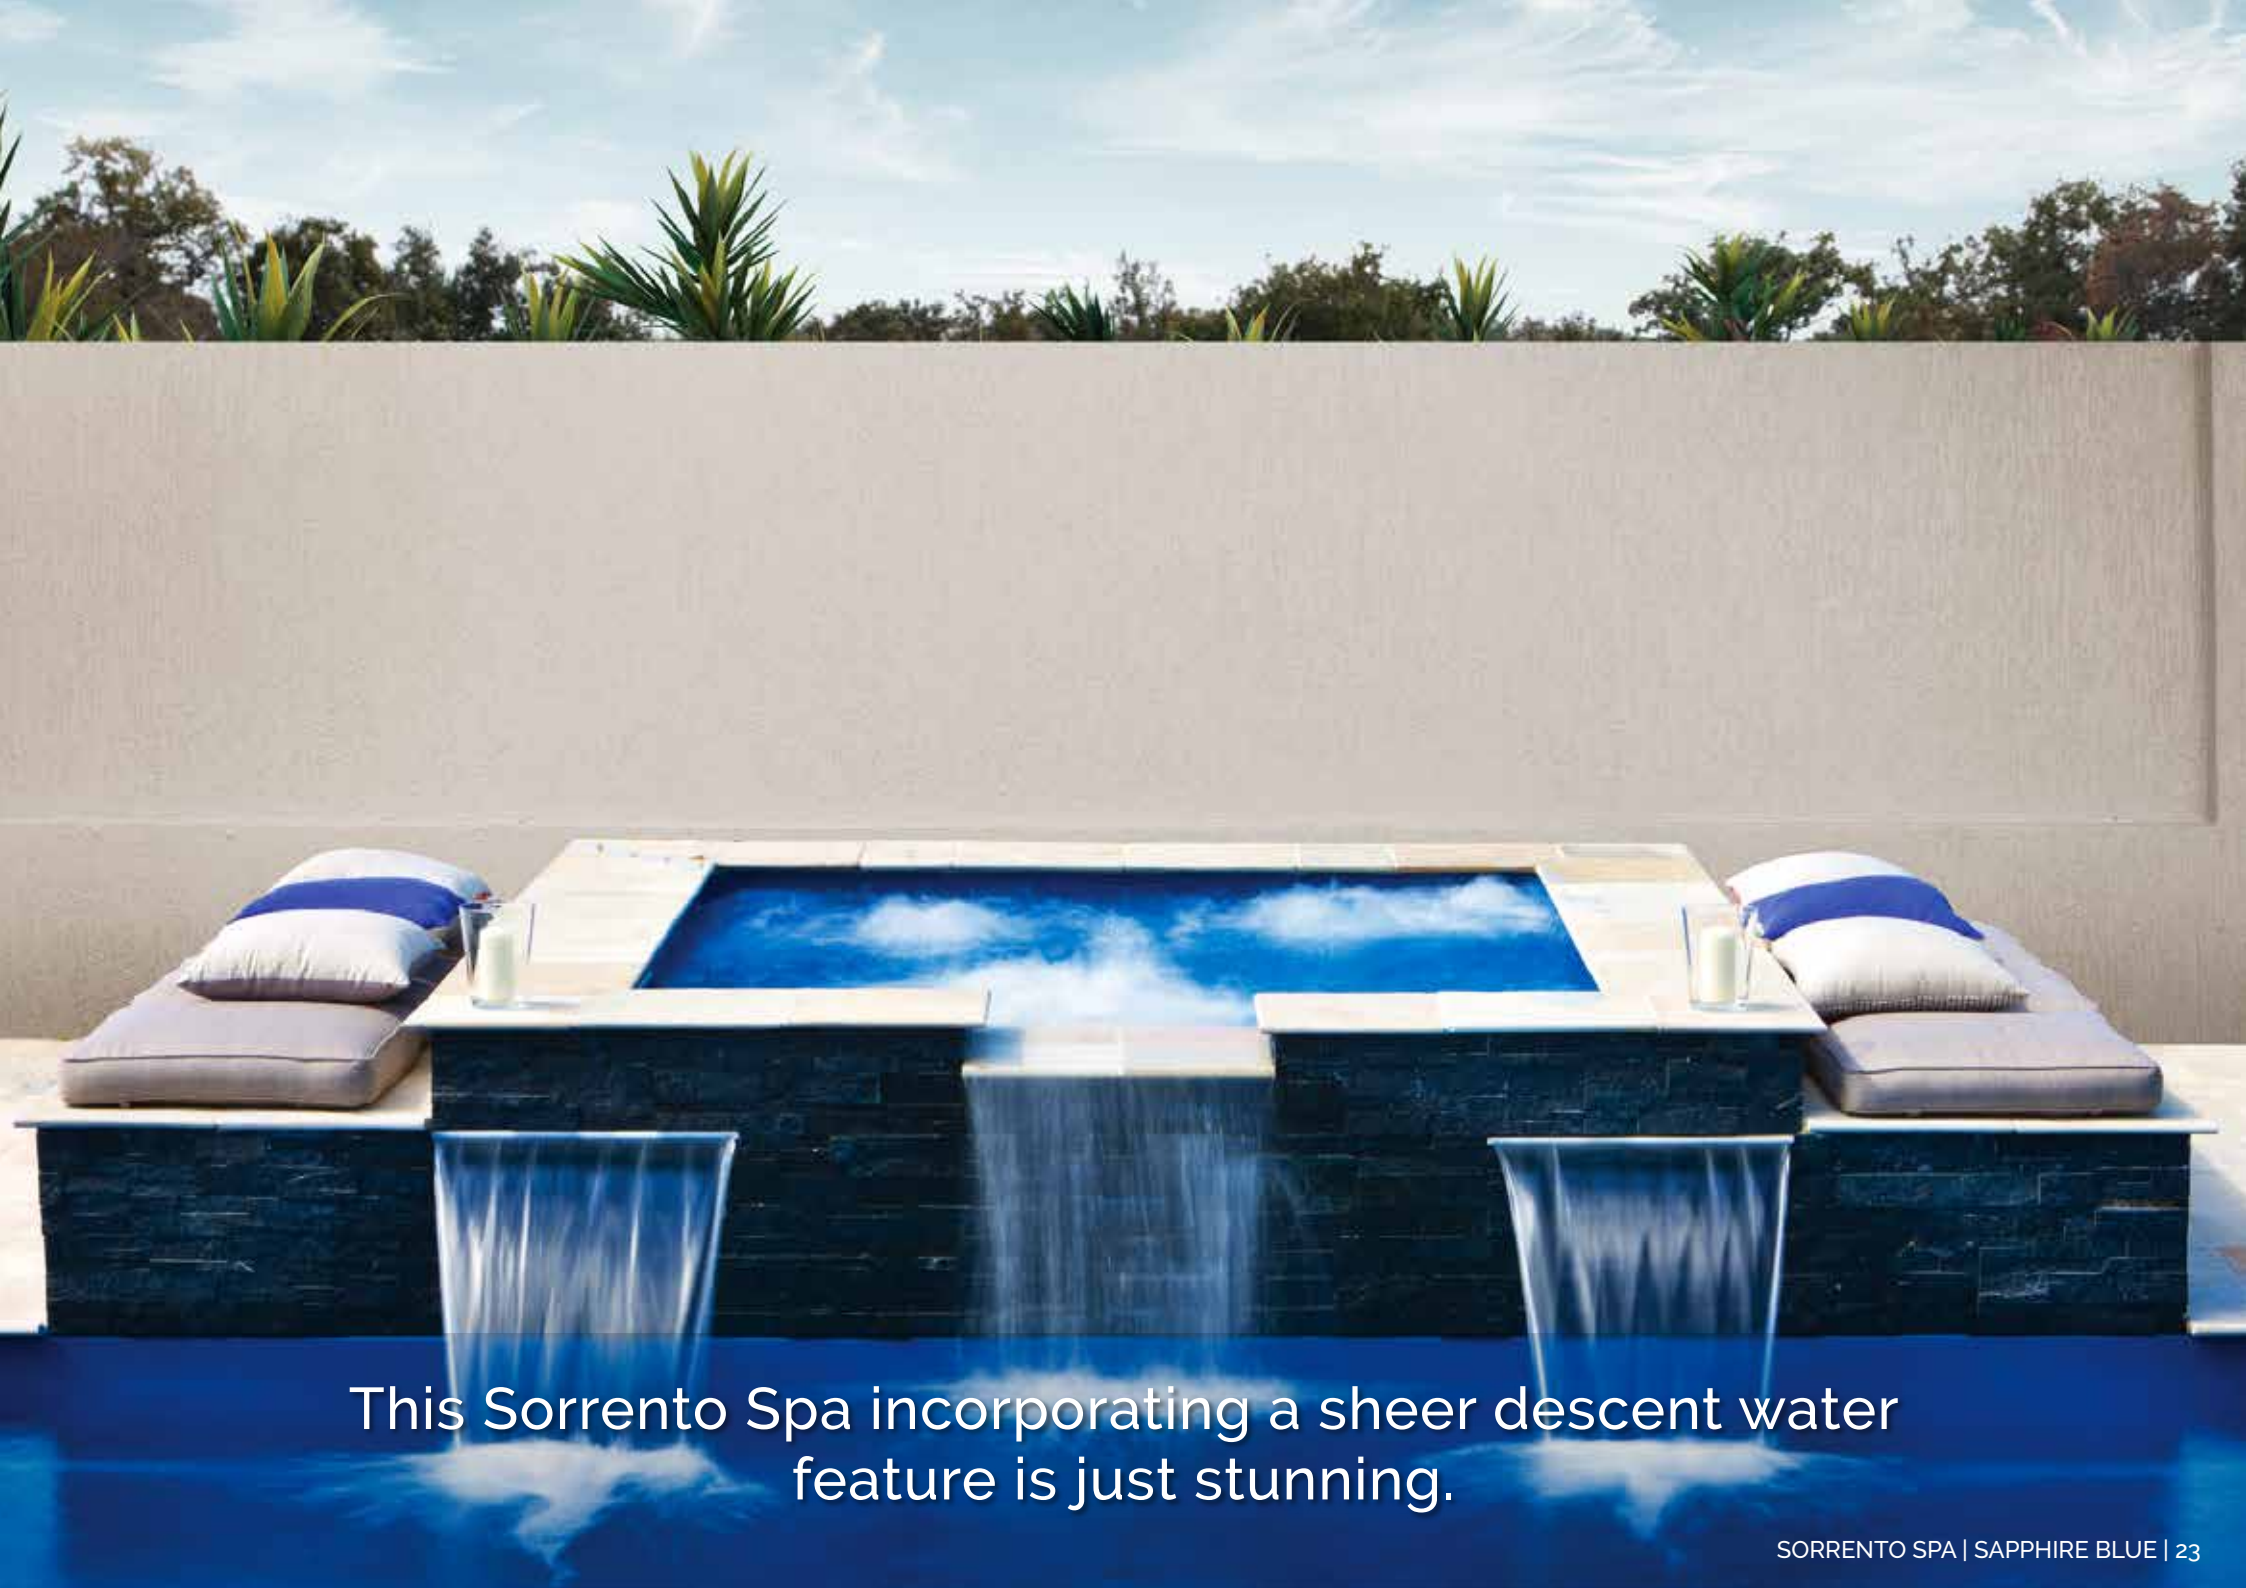

Believe it or not, this is a handcrafted concrete rock waterfall!

A water feature can be a focal point.

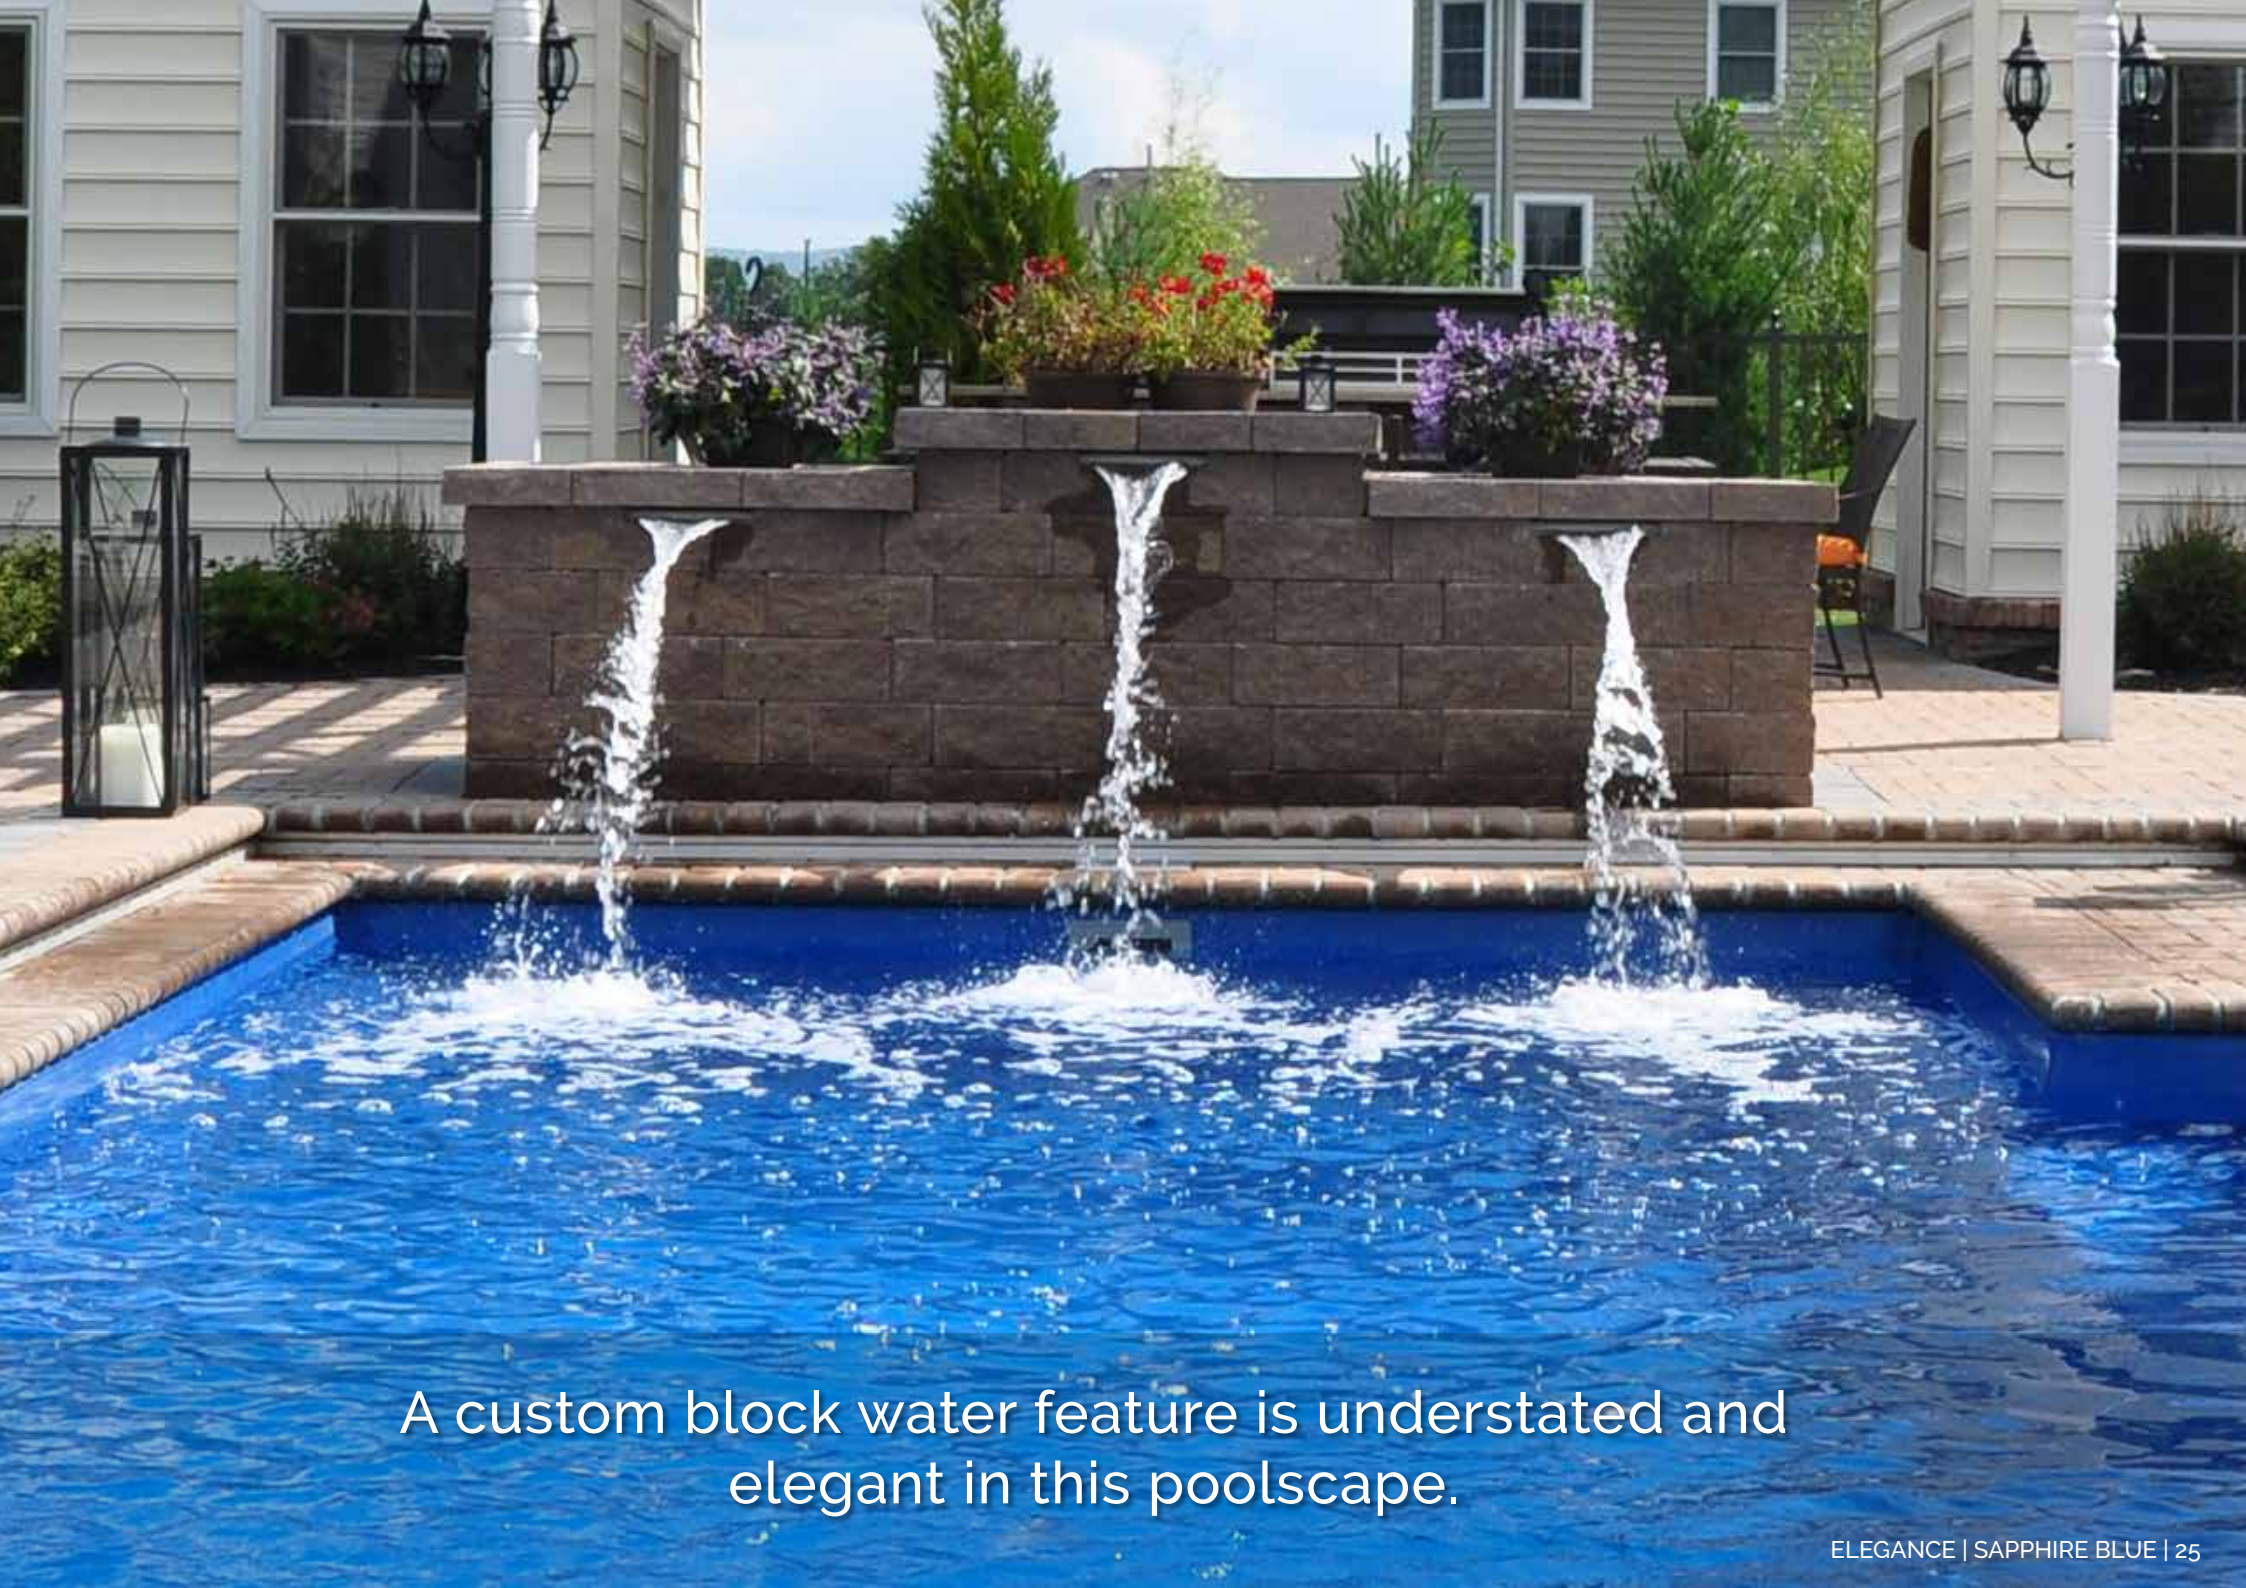

This Sorrento Spa incorporating a sheer descent water feature is just stunning.

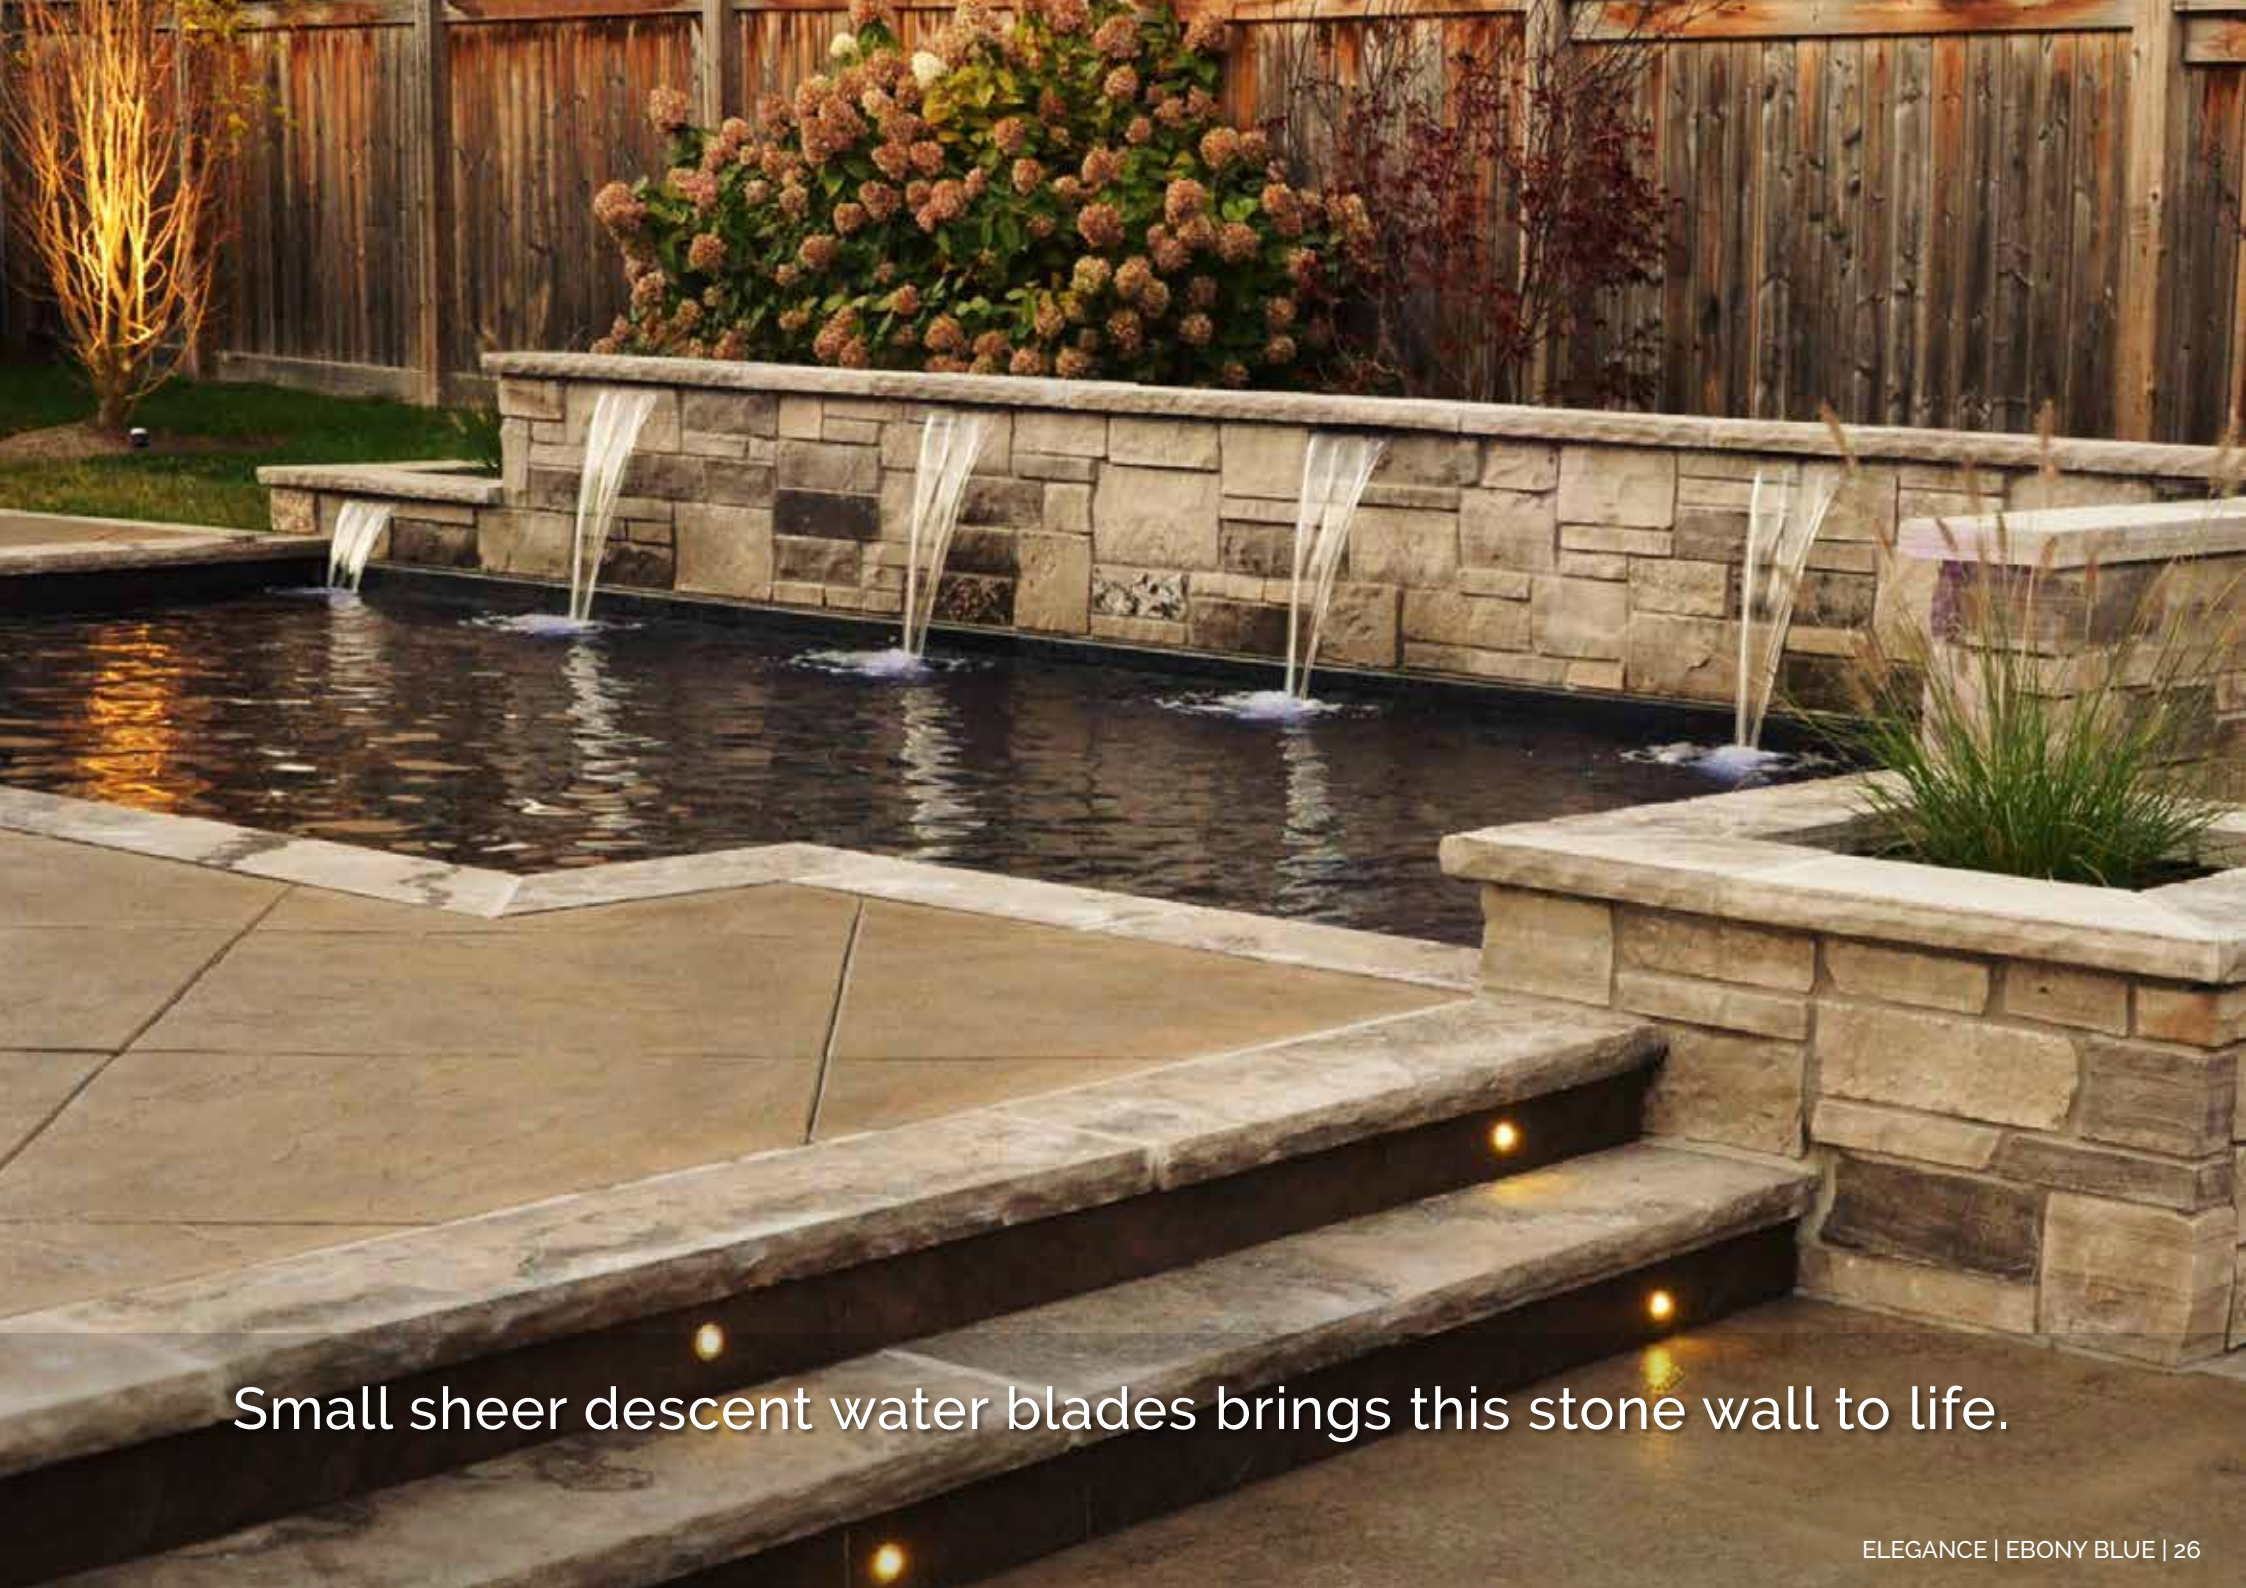

Imagination brought this water feature to life!

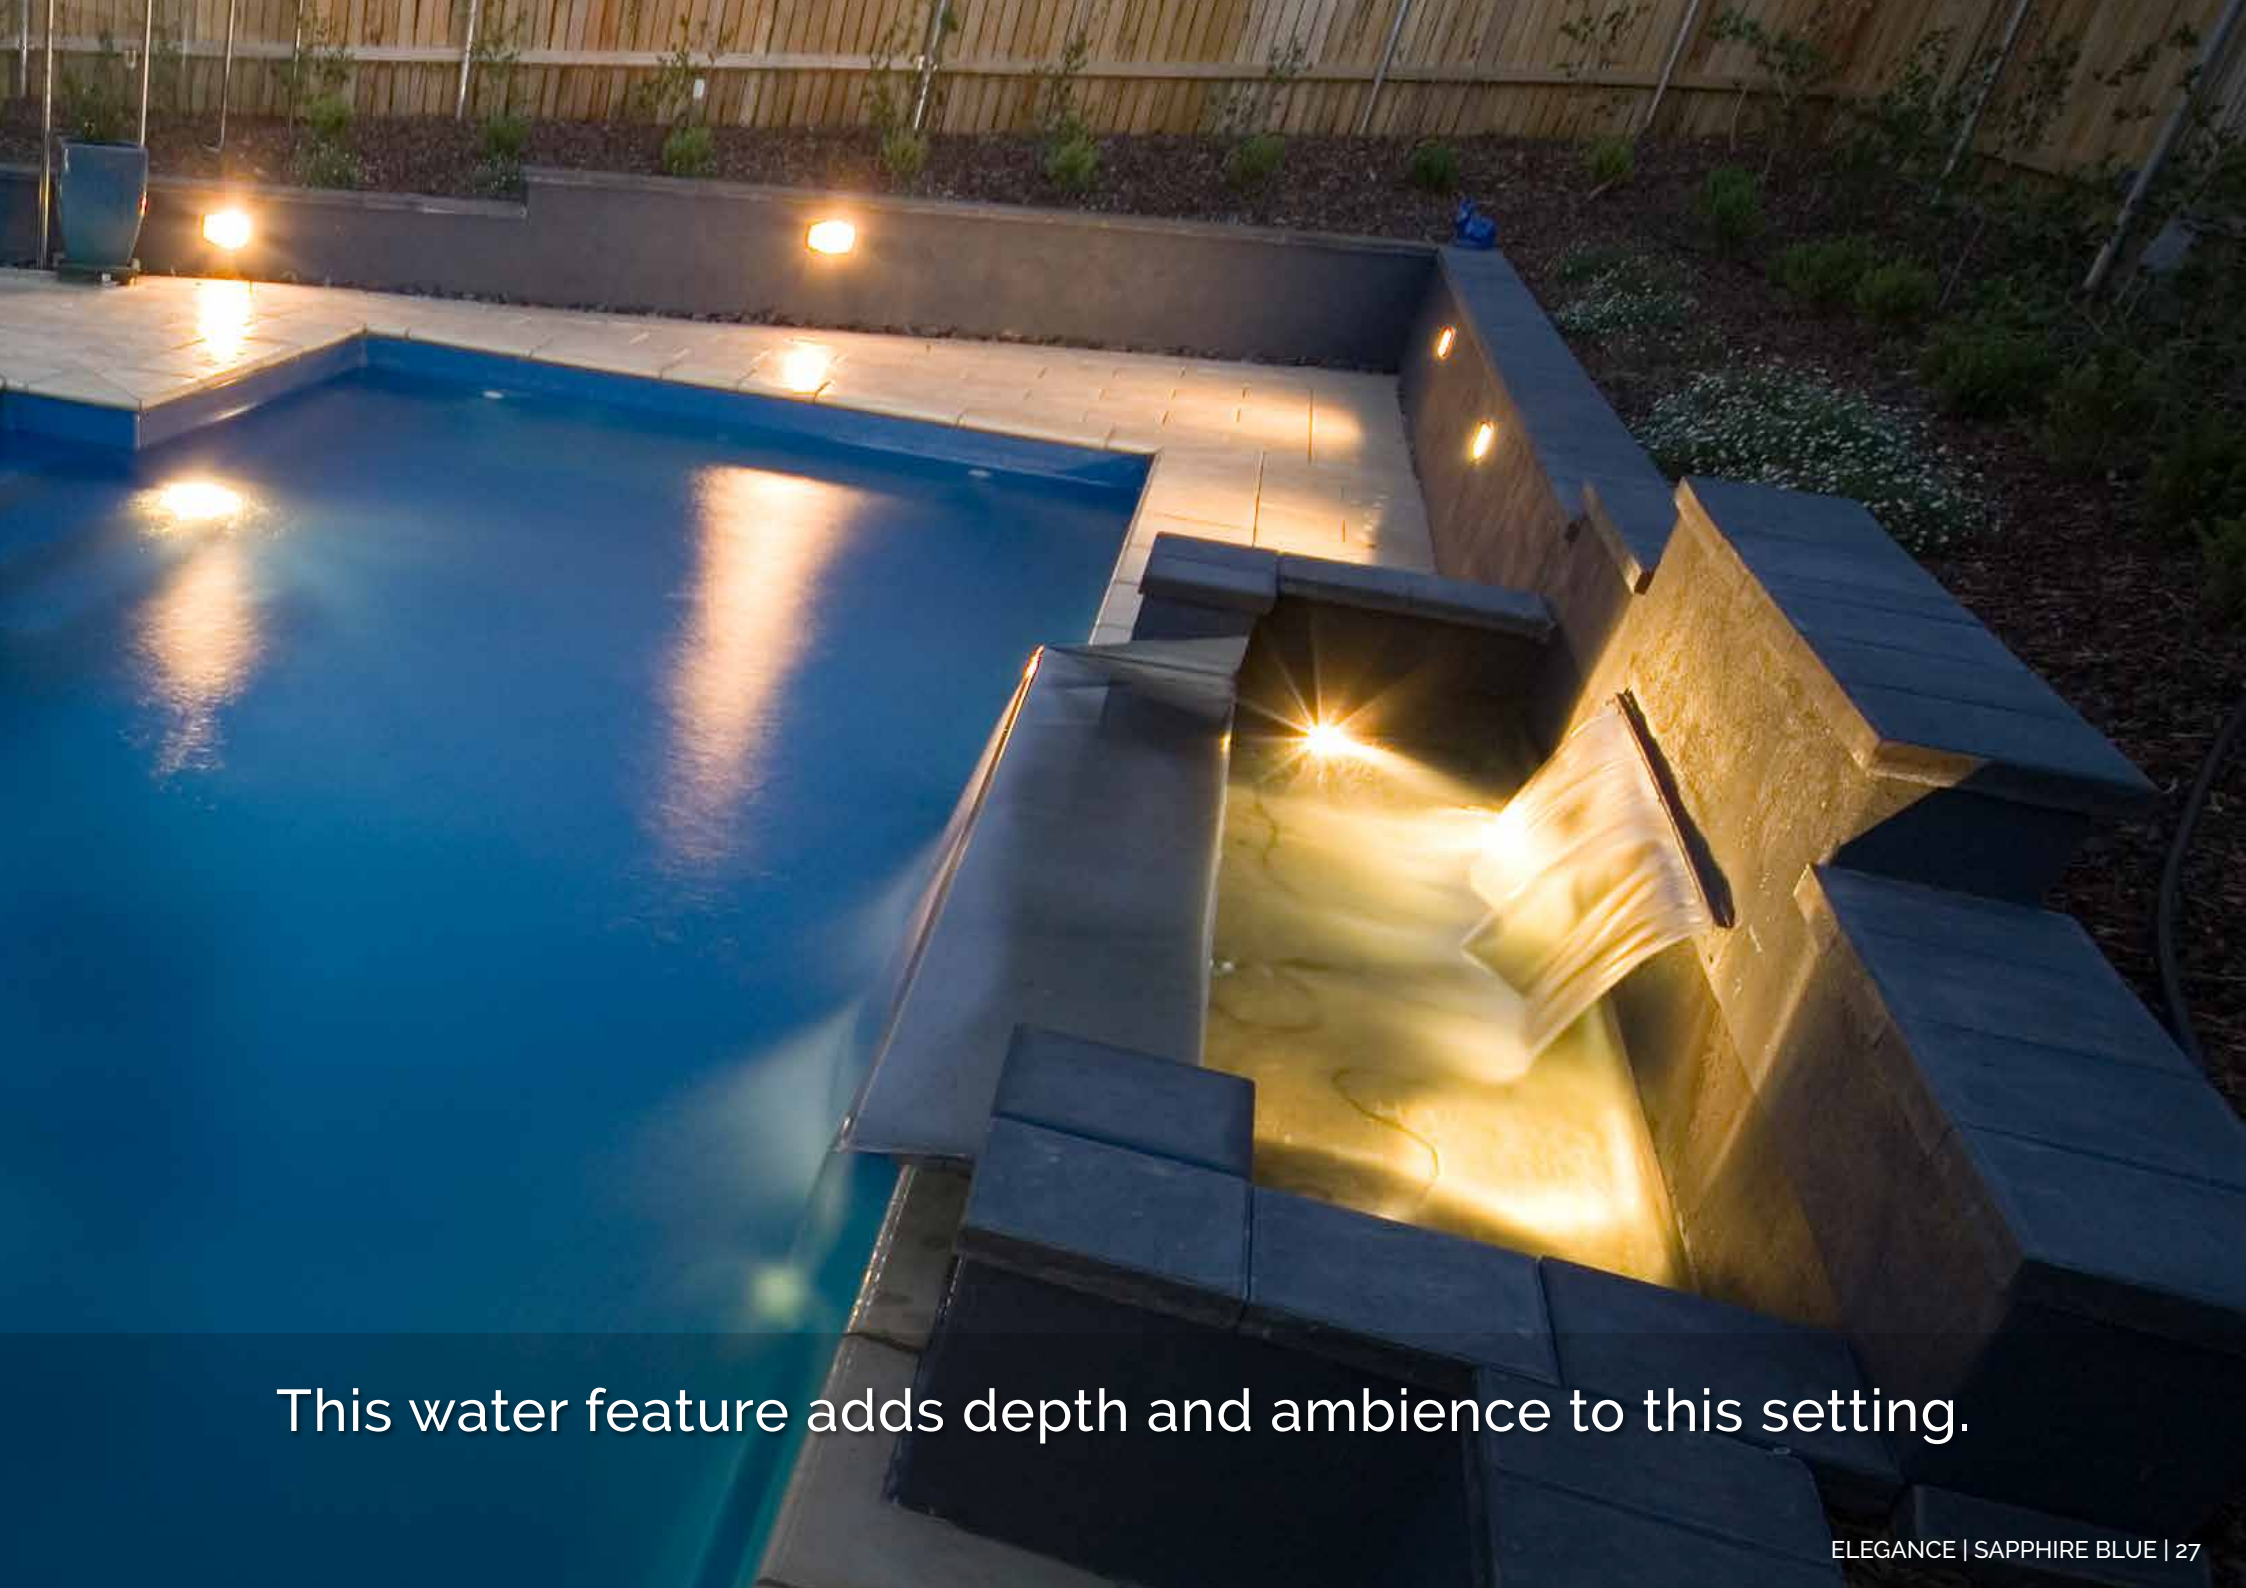

A custom block water feature is understated and elegant in this poolscape.

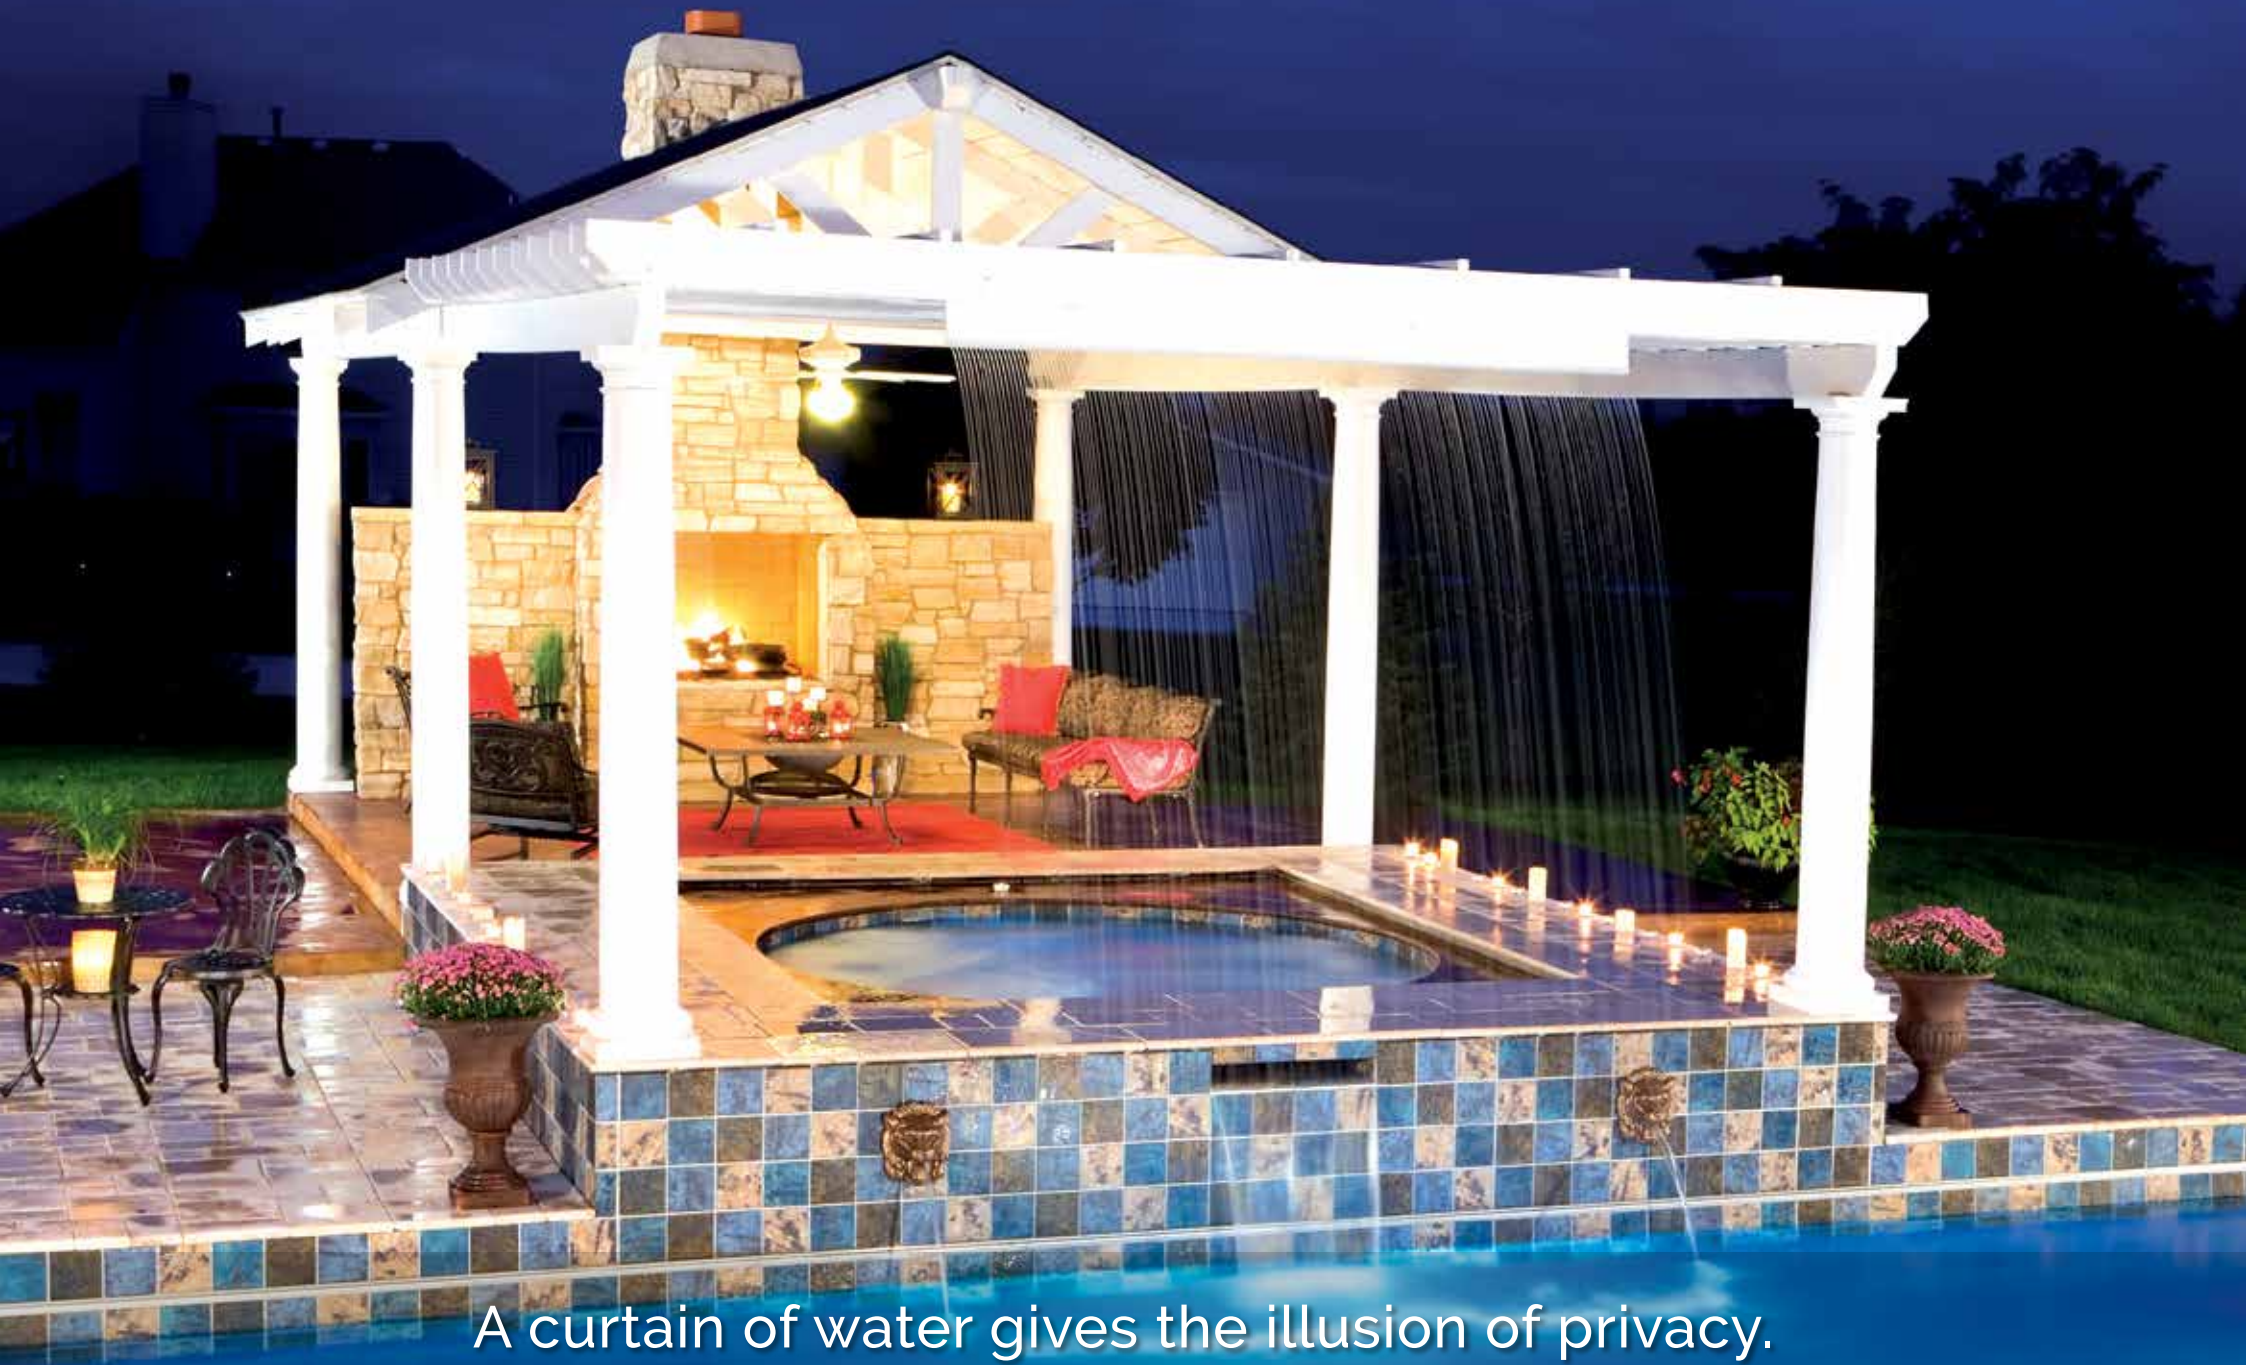

Small sheer descent water blades brings this stone wall to life.

This water feature adds depth and ambience to this setting.

A curtain of water gives the illusion of privacy.

A decorative feature adds a touch of individuality.

This temple style water feature adds a peaceful element to this space.

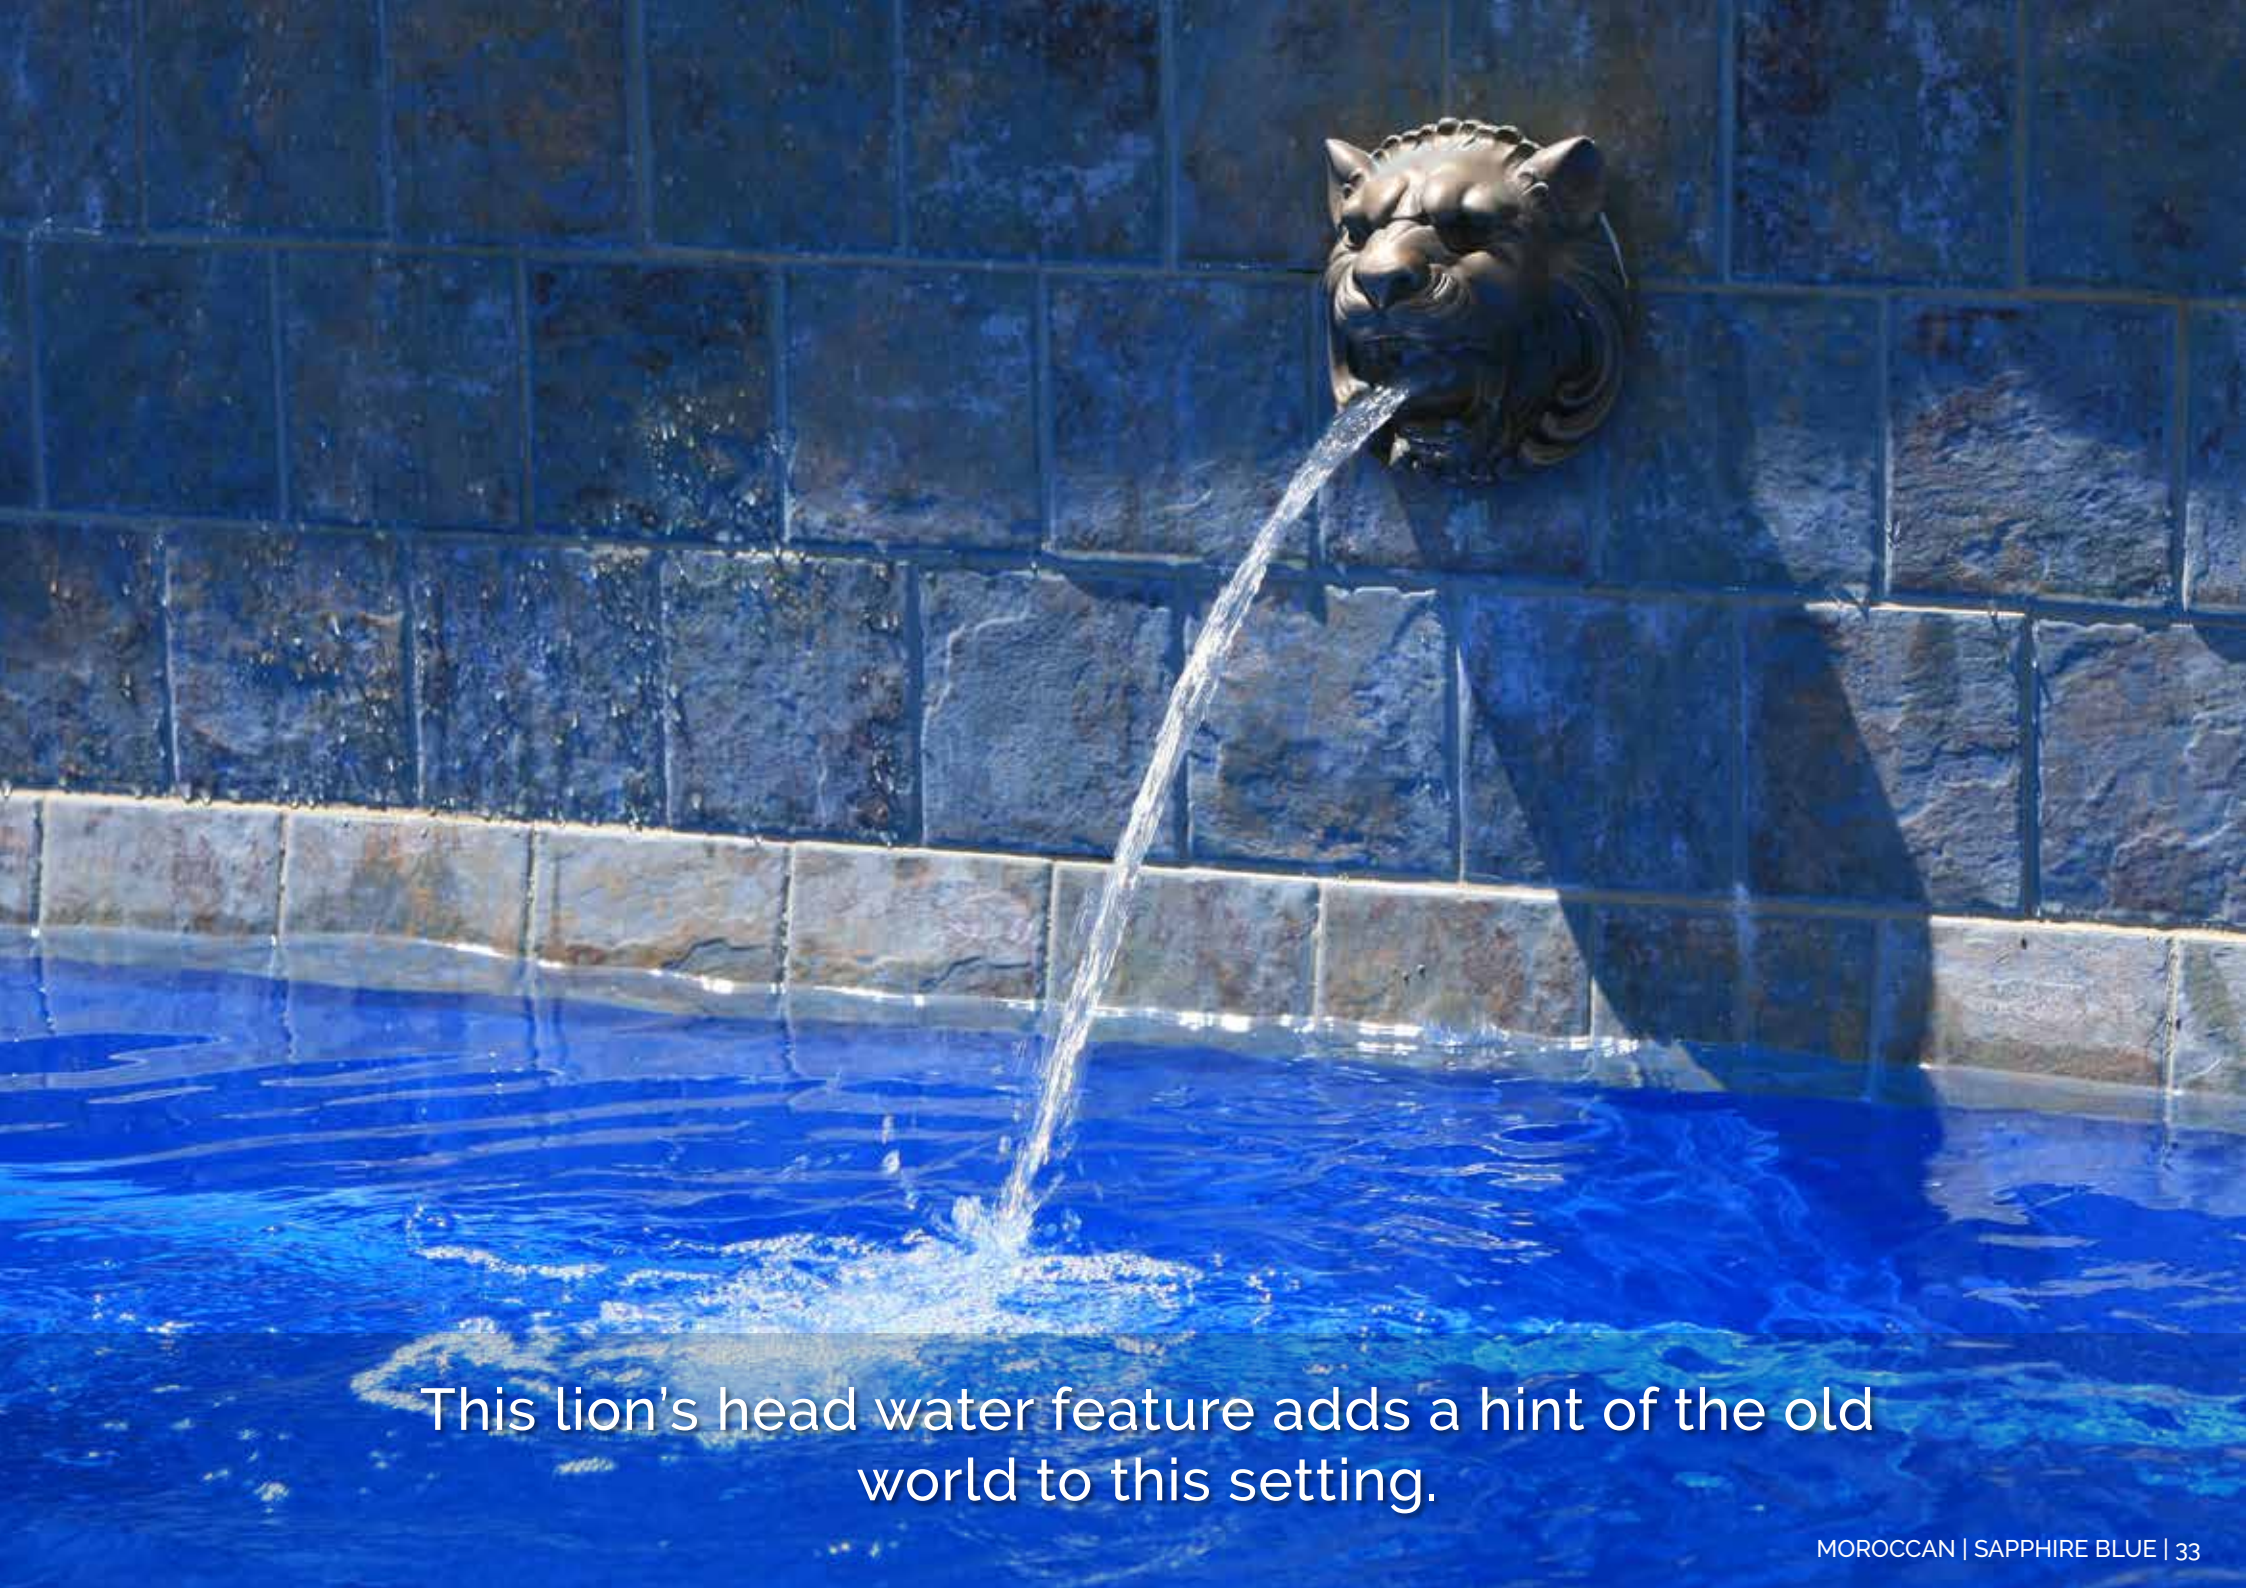

Illuminated water spout features enlivens this nightscape.

A block wall feature has an understated color that doesn't overwhelm this beautiful setting.

This lion's head water feature adds a hint of the old world to this setting.

This water feature uses the same material as the fencing columns, giving the entire area uniformity and sophistication.

A water feature playground.

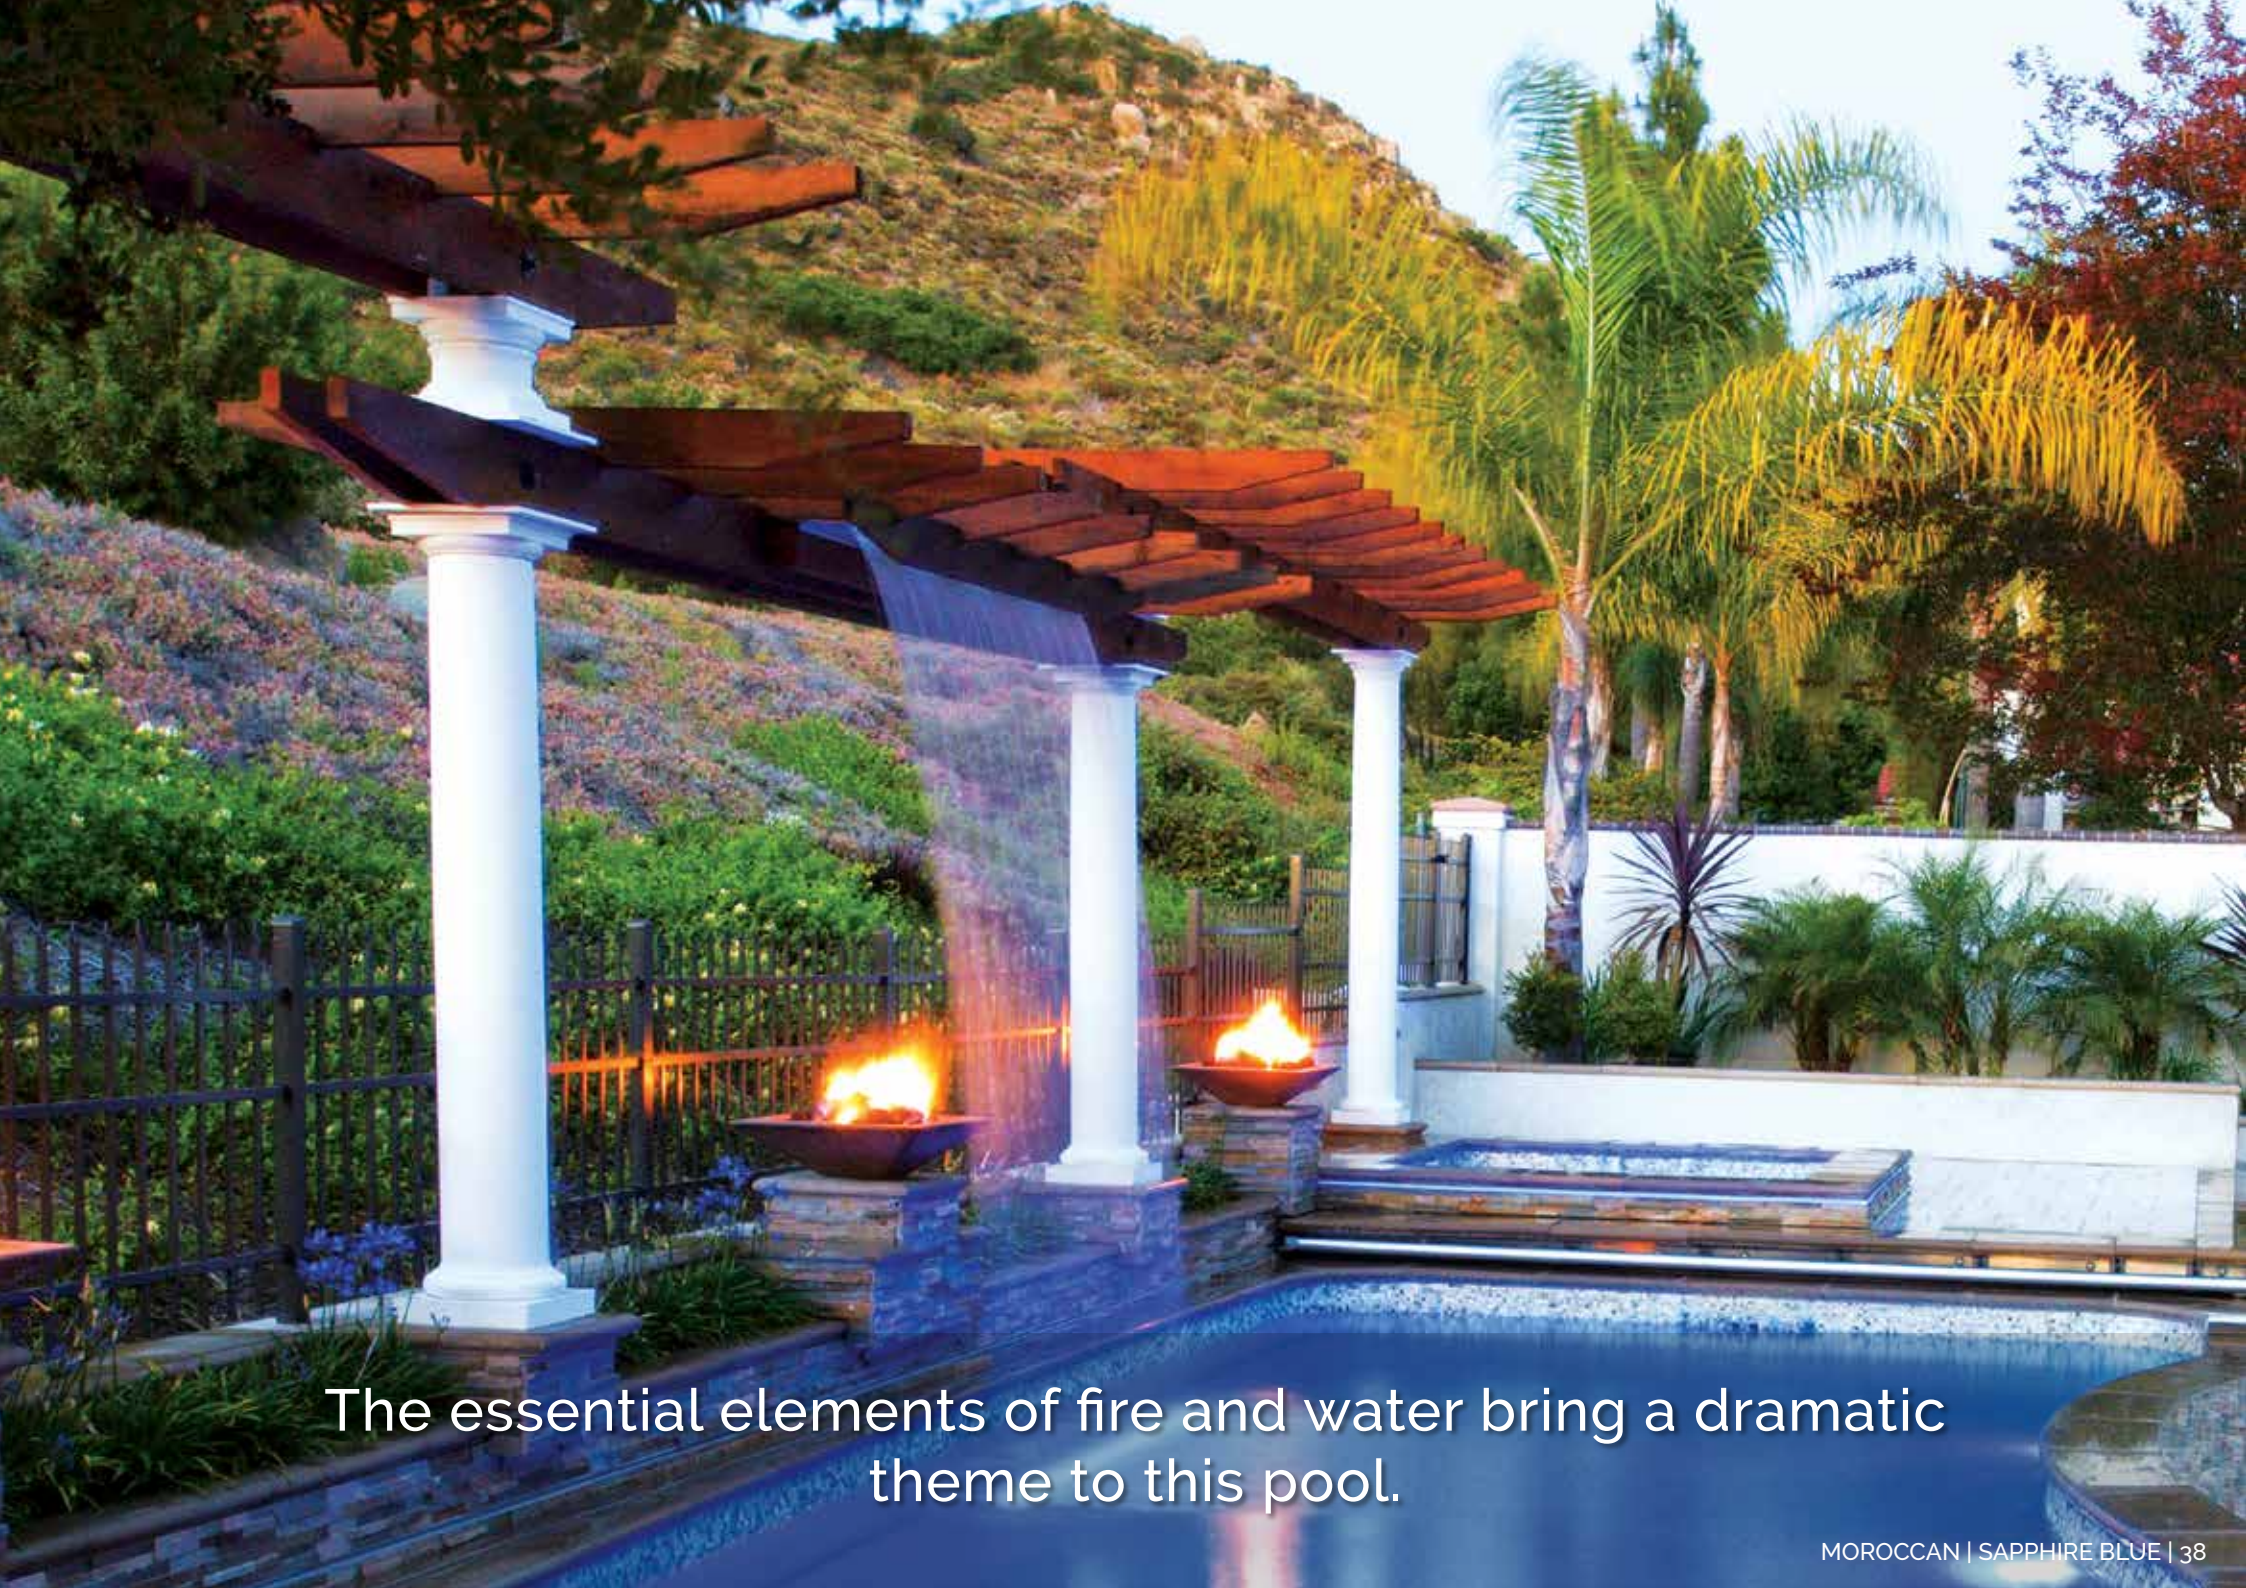

A platform water feature has a dramatic effect in this picturesque setting. This water feature also doubles as a fabulous splash pool with complimenting feature tiles.

This entertainment platform becomes an integrative feature of this pool with the simple addition of sheer descent water blades.

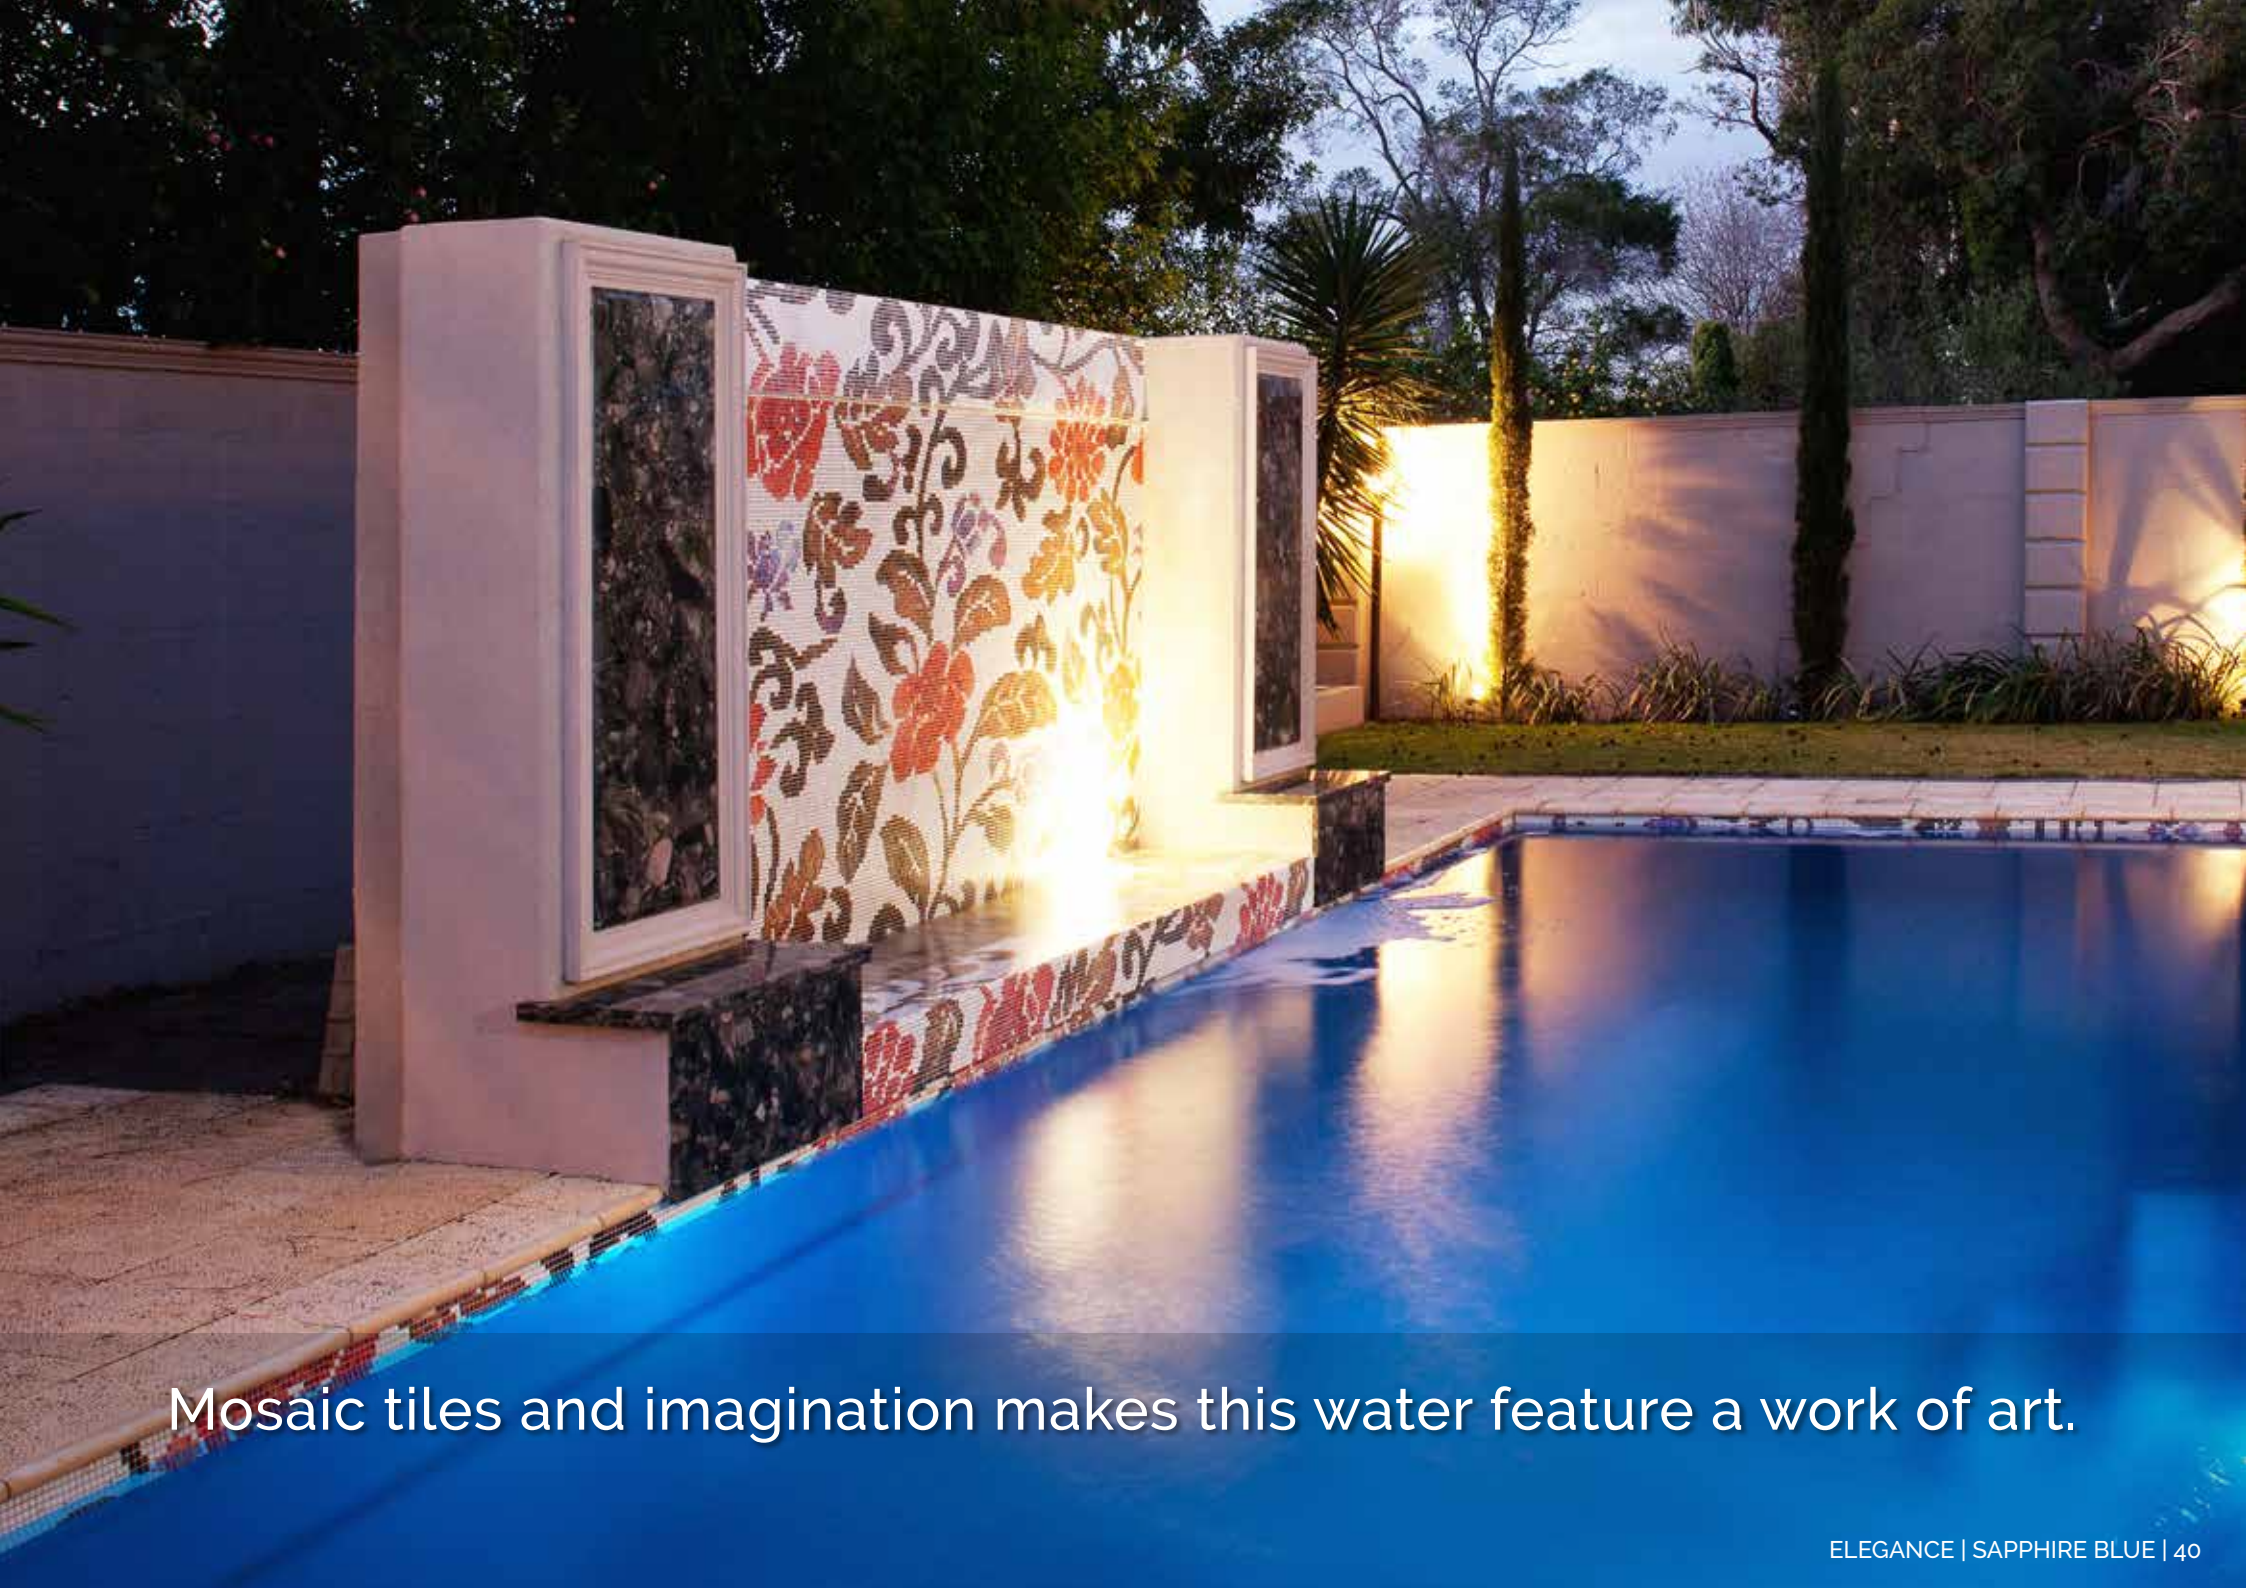

The essential elements of fire and water bring a dramatic theme to this pool.

Japanese style 'zen' water feature.

Mosaic tiles and imagination makes this water feature a work of art.

A unique tower style water feature uses dark stack stone that is a perfect match with the coping.

A feature wall that has an extra wide sheer descent embedded in it, creating a sheet of water falling into the pool.

Inspiration creates the possibilities!

A stunningly elegant custom feature matching the Riviera's curves.

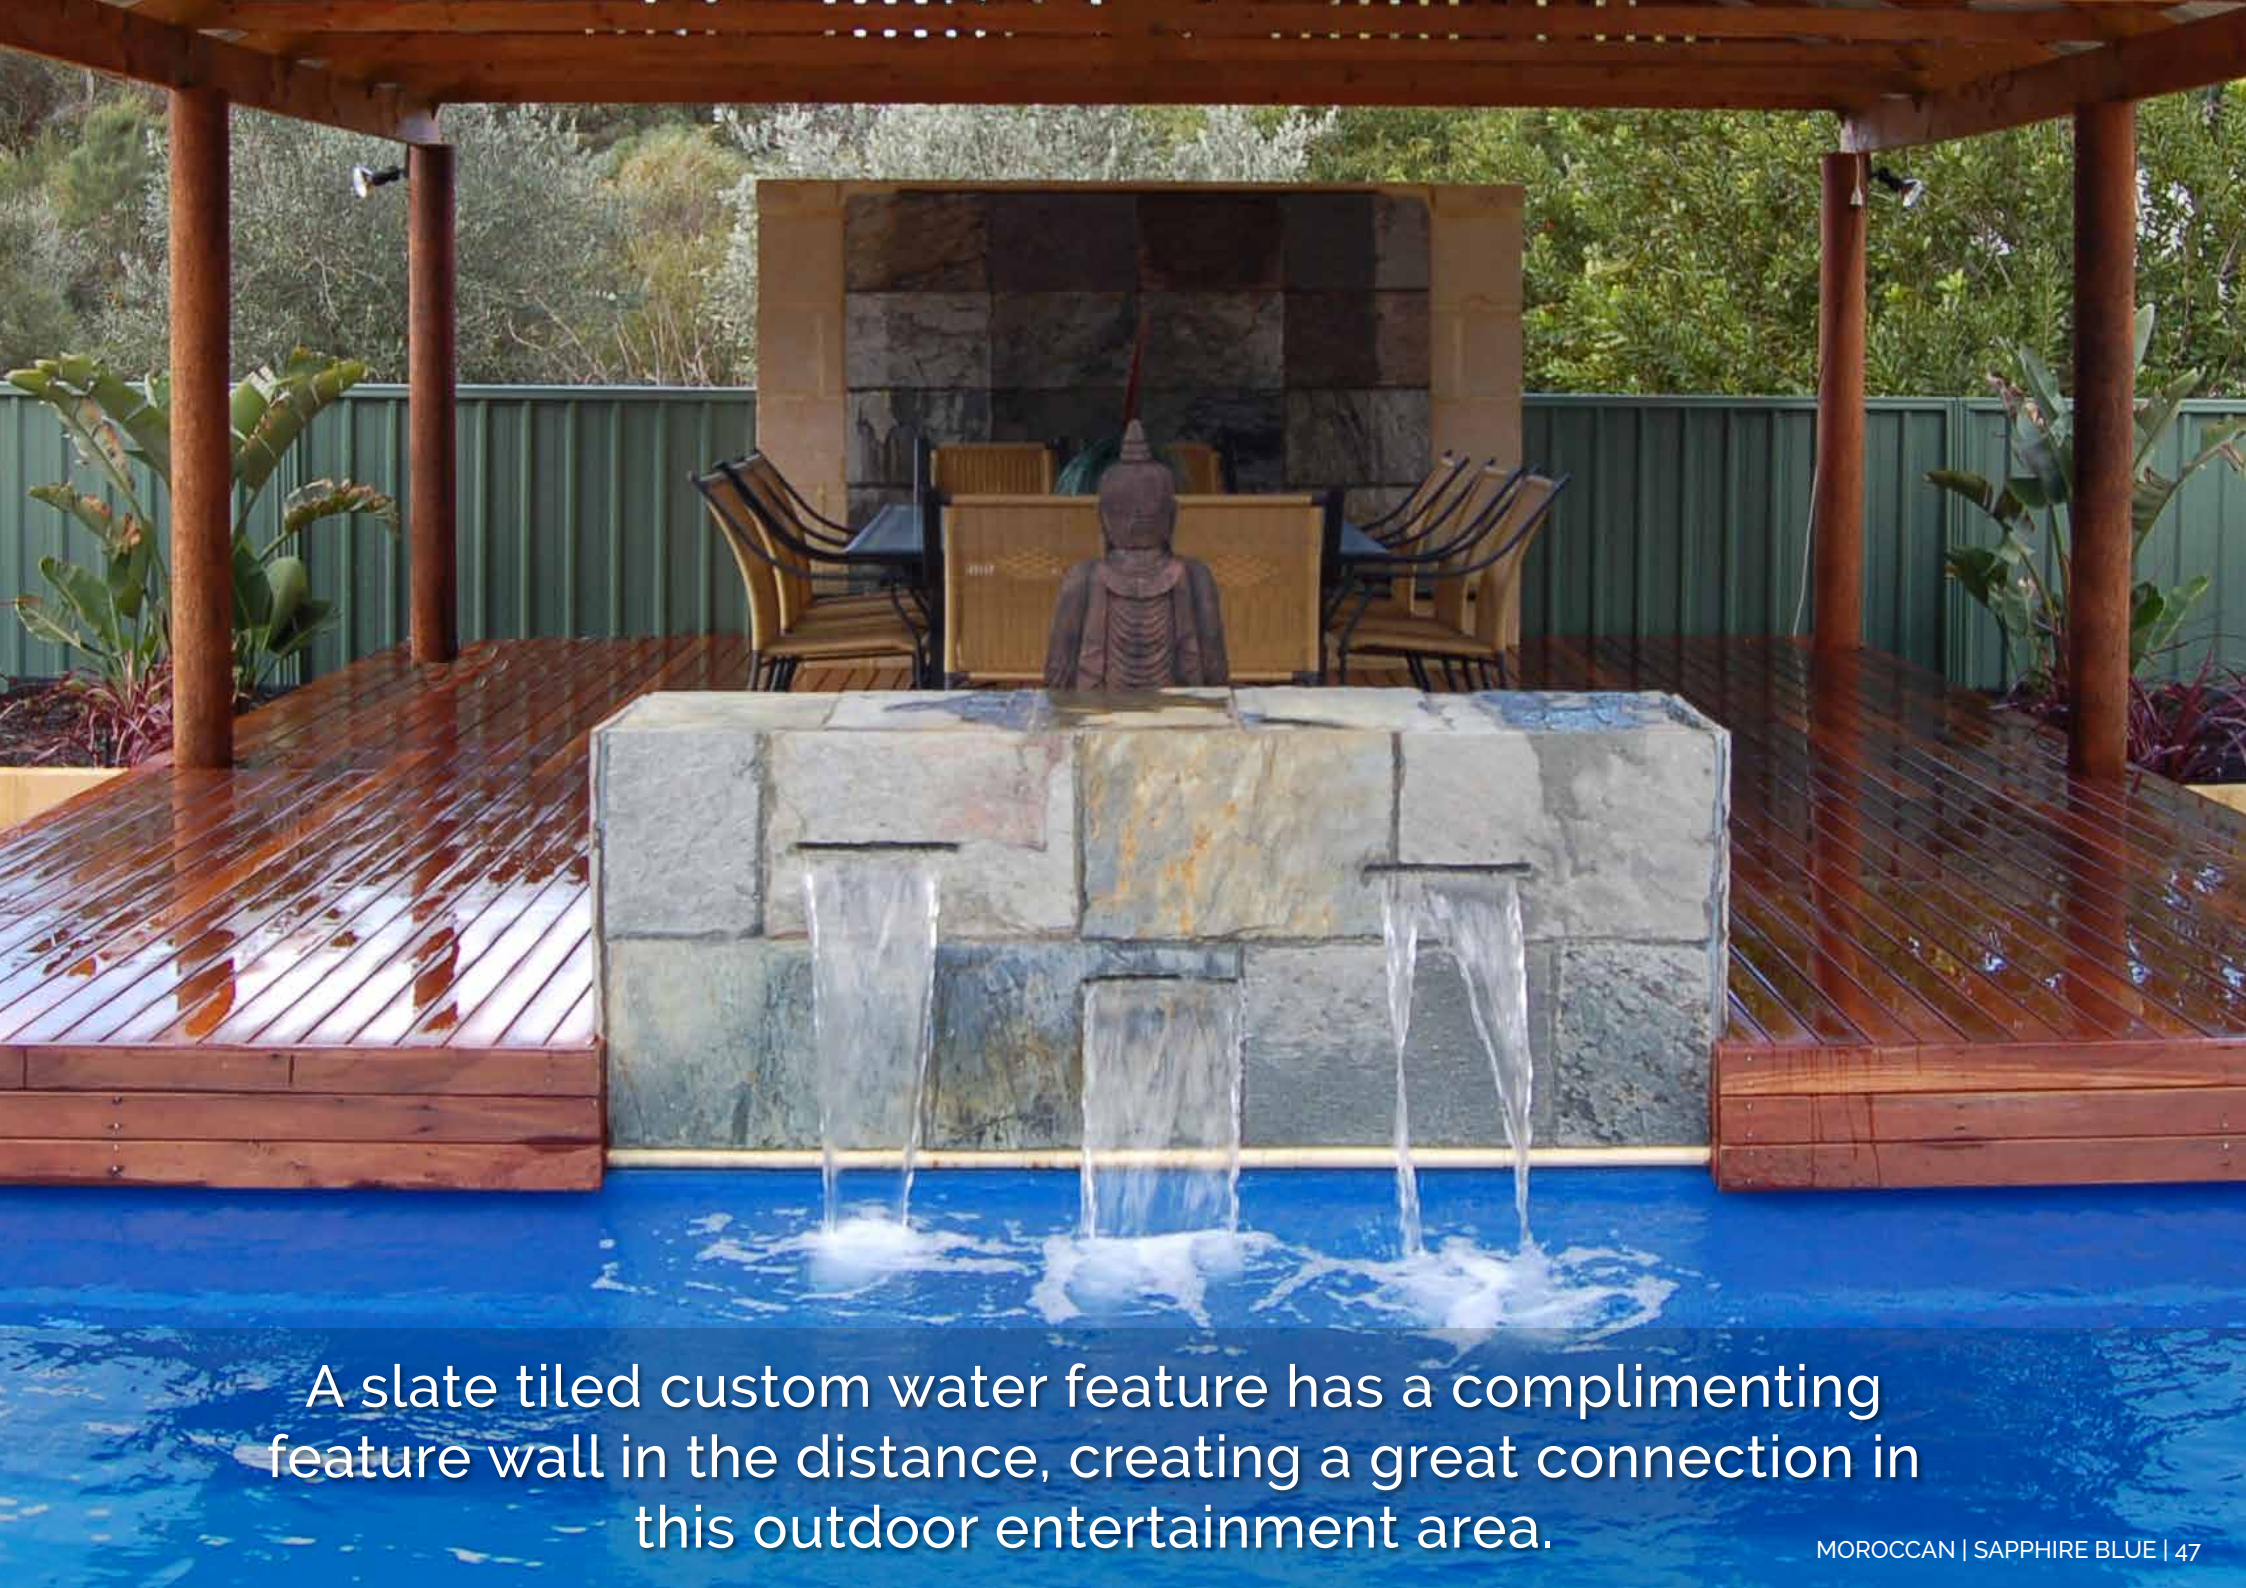

A Waterwall clad in stack stone is just the beginning of this visual feature. Different angular wall concepts behind the waterfall create depth and interest.

A Waterwall with sunset stack stone blend magnificently with the unusual coloring of the under leaf of the Magnolia “Little Gems”.

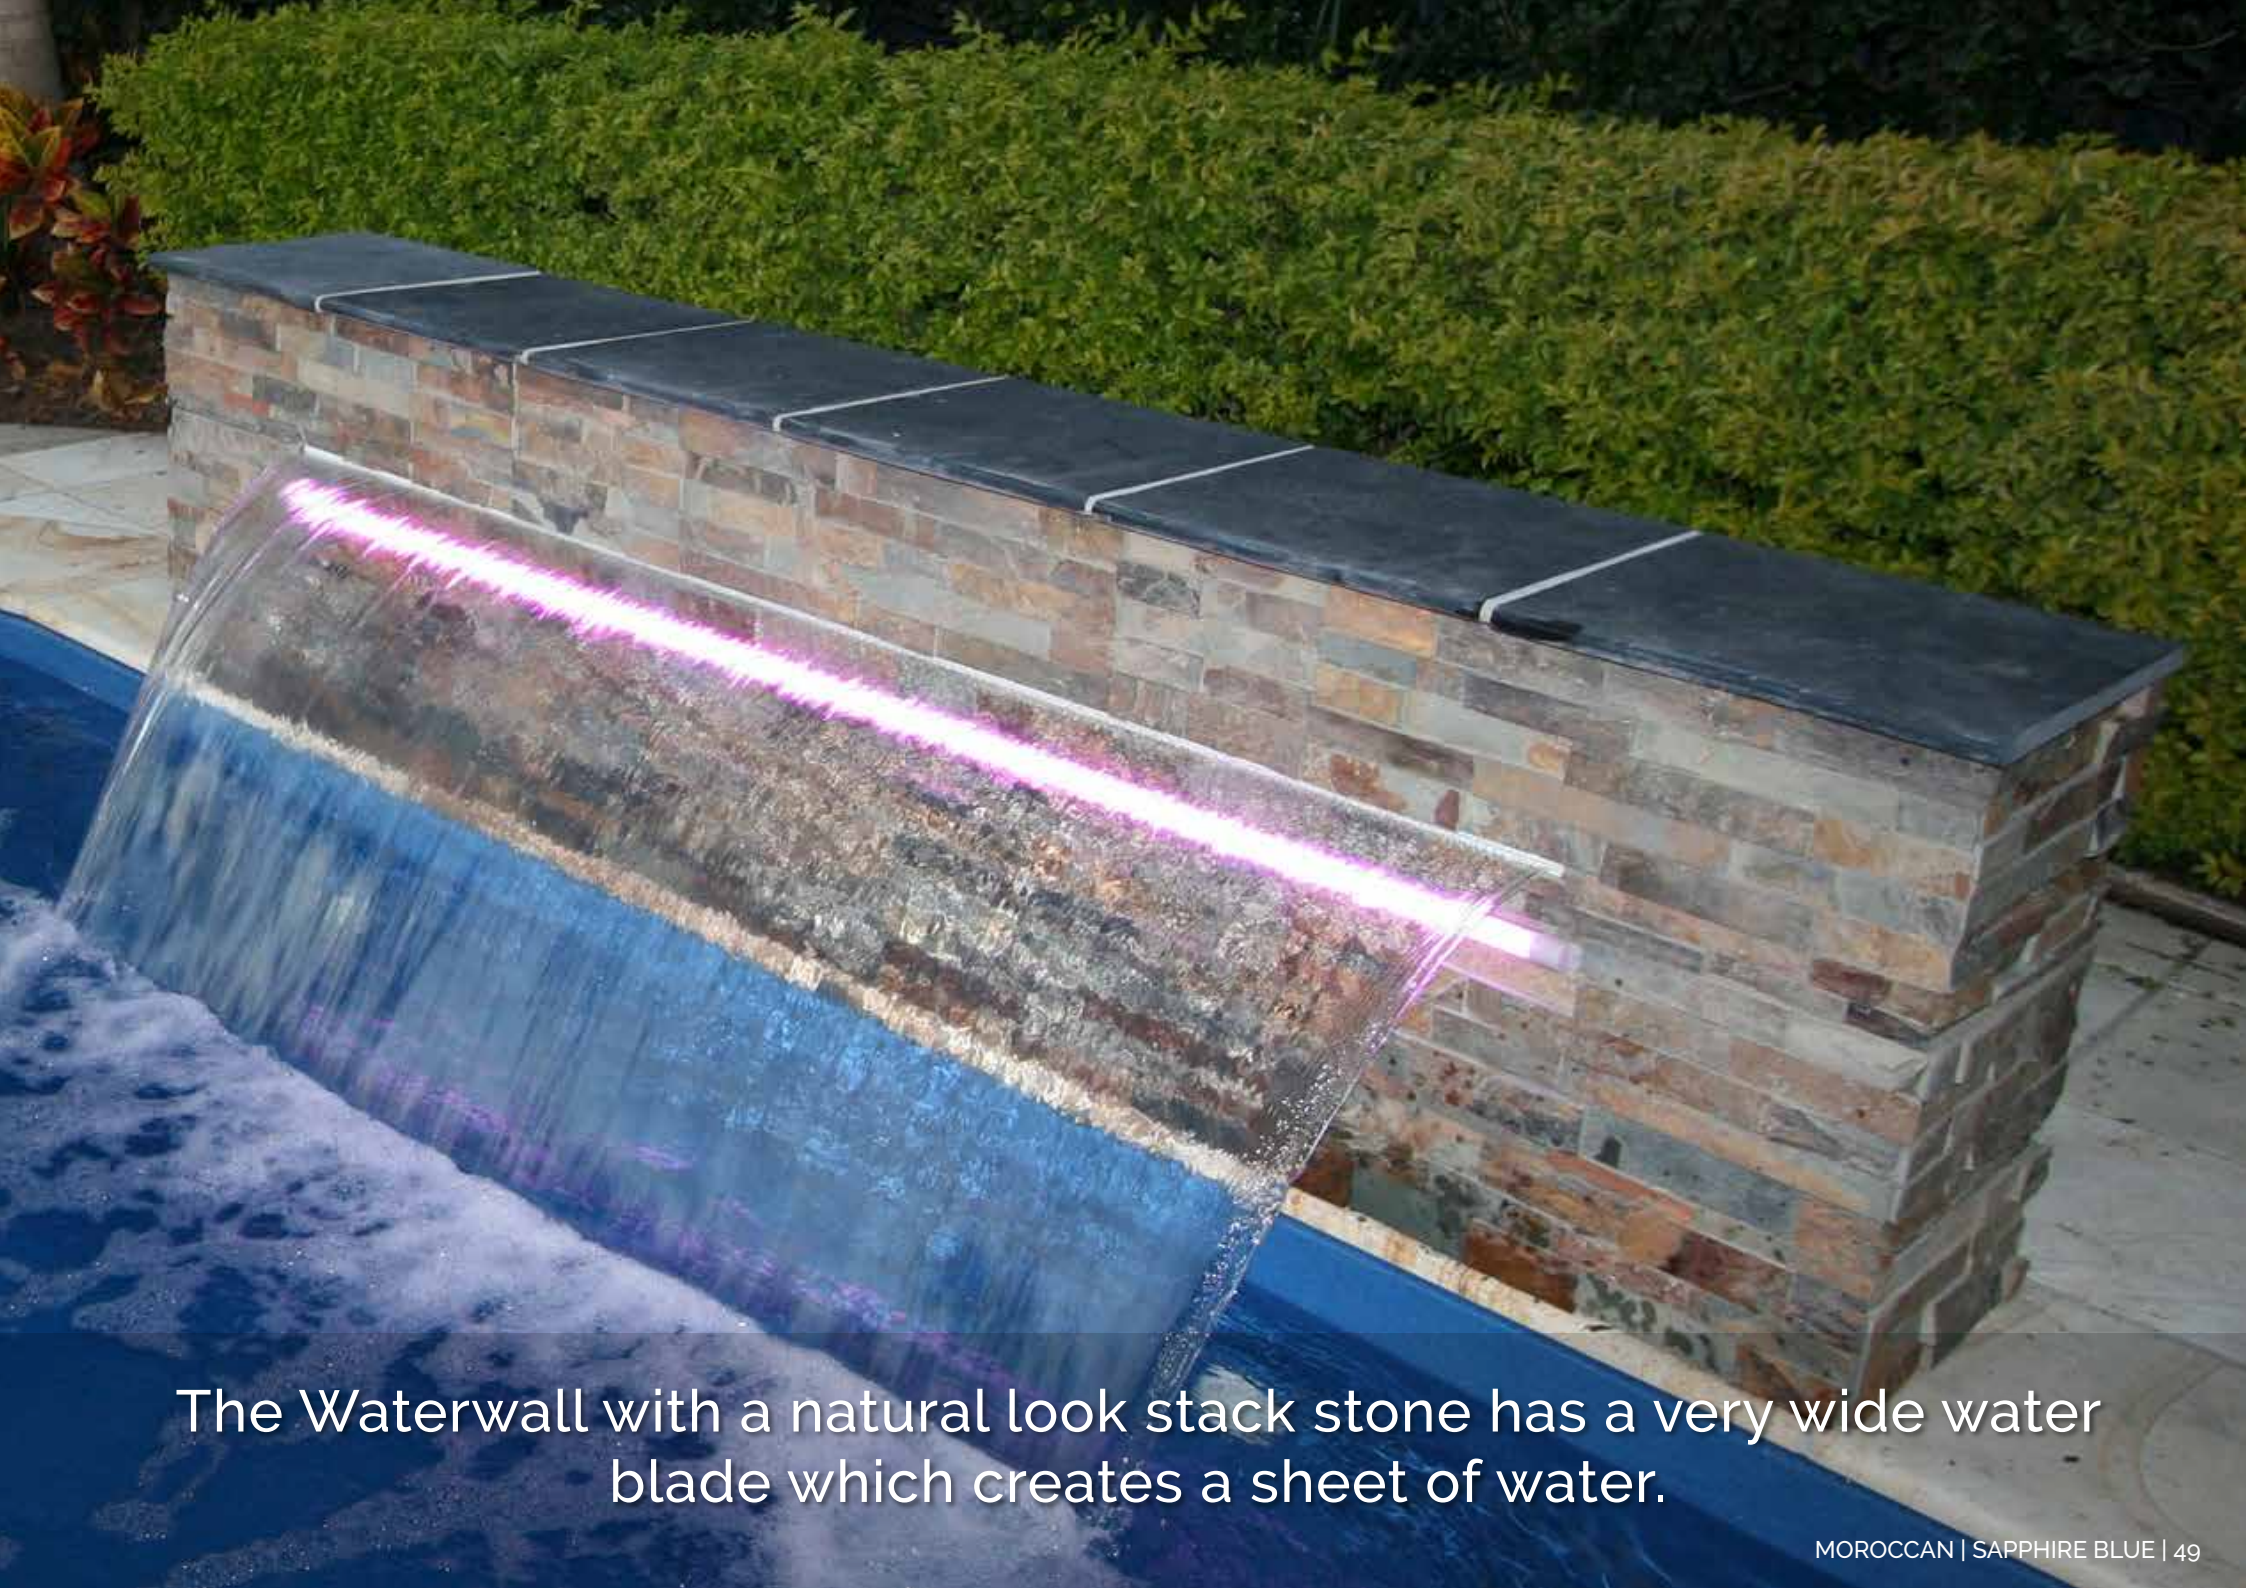

A slate tiled custom water feature has a complimenting feature wall in the distance, creating a great connection in this outdoor entertainment area.

An elegant way to present the Waterwall as a focal point.

The Waterwall with a natural look stack stone has a very wide water blade which creates a sheet of water.
