Stained Glass

As we head into the cold, dark months, let's add some color to be hung in your favorite window. During these classes, we will be making a corner stained glass piece approximately 11"x11" to be hung in the corner of a special window. This piece will be made with careful attention to making it "square" so that it hangs straight and fits exactly into your window. You will have the opportunity to select from a large variety of colors, cut and grind the glass, copper foil each piece and then solder the piece together. Finally, it will be framed in a zinc frame and will be ready to hang when you take it home. So come out and join us for some fun and don't forget to bring: a ruler, pencil with eraser, eye protection, old soft rags, scissors, rubber gloves, 2 small plastic containers (i.e. pill bottles) and a small box (shoe box is great). **Additional \$40 supply fee will be collected at the first class (make check payable to Sallie Derr). DIY Christmas Decorations with Natural Materials

From branches and wood slices, pine cones, stones, wool and more, looking to nature for craft supplies is a great alternative to buying plastic and other non-biodegradable materials. Unleash the Writer within You

Do you like to write, but cannot seem to find the time? Do you have a story you want to tell, but are not sure how to start? Do you want to combine physical fitness with mental motivation? Join me and you will be "write" where you belong as you learn how to organize your thoughts, be inspired to write through walk and talk discussions, and develop a plan to share your story with others. No matter where you are in life...you are on the "write" path! I am so excited to introduce my newest adventure that combines two of my all-time favorite things — being outdoors and writing. Dress to be outside in the pavilion and bring your own journal and pen. INSTRUCTOR: Rebecca Spellman, college professor

DATE: Wednesday, October 13
TIME: 5:00-7:00pm
FEE: \$15.00
