

# My Wish This Christmas

Don Gnecco

Stars twinkle above, there is Christmas in the air.  
Wreaths on ev'ry door, there are lights everywhere.  
I see Christmas magic in ev'ry tree.  
Stars twinkle above just for you and me.

Stars twinkle above, there is music in the air.  
Carols float on the breeze, I hear bells everywhere.  
I hear choirs singing, in harmony.  
Stars twinkle above just for you and me.

*My wish this Christmas is coming true.  
My only wish is to be with you.*

## Modulation

Stars twinkle above, I smell Christmas in the air.  
Fresh evergreen boughs, Christmas goodies everywhere.  
Cookies, figs, and eggnog, candy canes on trees.  
Stars twinkle above just for you and me.

*My wish this Christmas is coming true.  
My only wish is to be with you.*

*My wish this Christmas is coming true.  
My only wish is to be with you.*
