

## Safety Data Sheet

### Section 1: Identification

#### Product identifier

- Product Name** • **US-10**
- Synonyms** • 10/55; 10-0-0-18(S); Urea Sulfate (1:1) - Sulfuric Acid Solution

#### Relevant identified uses of the substance or mixture and uses advised against

- Recommended use** • Fertilizer Solution

#### Details of the supplier of the safety data sheet

- Manufacturer** • Verdegaal Brothers, Inc.  
13555 S. 11th Ave.  
Hanford, CA 93230-9591  
United States  
www.verdegaalbrothers.com  
verdegaal@verdegaalbrothers.com, jgregory@verdegaalbrothers.com  
receptionist@verdegaalbrothers.com

**Telephone (General)** • (559) 582-9205

#### Emergency telephone number

- Manufacturer** • 1-800-535-5053 - INFOTRAC

### Section 2: Hazard Identification

#### United States (US)

According to: OSHA 29 CFR 1910.1200 HCS

#### Classification of the substance or mixture

- OSHA HCS 2012**
- Acute Toxicity Oral 4
  - Skin Irritation 2
  - Serious Eye Damage 1
  - Specific Target Organ Toxicity Single Exposure 3: Respiratory Tract Irritation

#### Label elements

OSHA HCS 2012

#### DANGER

- Hazard statements** • Harmful if swallowed  
Causes skin irritation  
Causes serious eye damage  
May cause respiratory irritation

## Precautionary statements

- Prevention** • Avoid breathing mist, vapours and/or spray.  
Wash thoroughly after handling.  
Do not eat, drink or smoke when using this product.  
Use only outdoors or in a well-ventilated area.  
Wear protective gloves/protective clothing/eye protection/face protection.
- Response** • IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
Call a POISON CENTER or doctor/physician if you feel unwell.  
If on skin: Wash with plenty of water .  
Take off contaminated clothing and wash before reuse.  
Specific treatment, see supplemental first aid information.  
If skin irritation occurs: Get medical advice/attention.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
Immediately call a POISON CENTER or doctor/physician.  
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician if you feel unwell.  
Rinse mouth.
- Storage/Disposal** • Store in a well-ventilated place. Keep container tightly closed.  
Store locked up.  
Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

## Other hazards

### OSHA HCS 2012

- Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

## Section 3 - Composition/Information on Ingredients

### Substances

Composition					
Chemical Name	Identifiers	%	LD50/LC50	Classifications According to Regulation/Directive	Comments
Urea sulfate, also known as monocarbamide dihydrogen sulfate	<b>CAS:</b> 21351-39-3	100%	NDA	<b>OSHA HCS 2012:</b> Acute Tox. 4, orl; Eye Dam. 1; Skin Corr. 1B; STOT SE 3: Resp. Irrit.	NDA

### Mixtures

- Material does not meet the criteria of a mixture.

## Section 4: First-Aid Measures

### Description of first aid measures

#### Inhalation

- Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. Get medical attention immediately.

#### Skin

- In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing. If irritation develops and persists, get medical attention.

#### Eye

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Get medical attention immediately.

- Ingestion**
- Do NOT induce vomiting. If swallowed, rinse mouth with water (only if the person is conscious) Have person sip a glass of water if able to swallow. Obtain medical attention immediately if ingested.

**Most important symptoms and effects, both acute and delayed**

- Refer to Section 11 - Toxicological Information.

**Indication of any immediate medical attention and special treatment needed**

- Notes to Physician**
- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

## Section 5: Fire-Fighting Measures

### Extinguishing media

- Suitable Extinguishing Media**
- In case of fire use media as appropriate for surrounding fire.

- Unsuitable Extinguishing Media**
- No data available

### Special hazards arising from the substance or mixture

- Unusual Fire and Explosion Hazards**
- Containers may explode when heated. During a fire, irritating and highly toxic gases may be generated by thermal decomposition of combustion.

- Hazardous Combustion Products**
- Combustion may yield oxides of carbon, nitrogen, and sulfur may be formed. Exposure to heat may liberate carbon dioxide and ammonia.

### Advice for firefighters

- Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible. Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Wear positive pressure self-contained breathing apparatus (SCBA). SMALL FIRES: Move containers from fire area if you can do it without risk.

## Section 6 - Accidental Release Measures

### Personal precautions, protective equipment and emergency procedures

- Personal Precautions**
- Ventilate enclosed areas. Do not walk through spilled material. Wear appropriate personal protective equipment, avoid direct contact. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

- Emergency Procedures**
- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Do not get water inside container.

### Environmental precautions

- Avoid run off to waterways and sewers.

### Methods and material for containment and cleaning up

- Containment/Clean-up Measures**
- Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Dike to collect large liquid spills. After removal, flush contaminated area thoroughly with water. Do not return spills to original containers for re-use.

## Section 7 - Handling and Storage

### Precautions for safe handling

**Handling**

- Handle and open container with care. Use only with adequate ventilation. Small quantities of carbon dioxide may be liberated during storage. Do not enter confined spaces such as tanks or pits without following proper confined space entry procedures. Wear appropriate personal protective equipment, avoid direct contact. Avoid breathing mist, vapours and/or spray. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

**Conditions for safe storage, including any incompatibilities****Storage**

- Keep container tightly closed. Store in a cool, dry, well-ventilated place. Keep away from incompatible materials. Protect containers against physical damage.

**Section 8 - Exposure Controls/Personal Protection****Control parameters****Exposure Limits/Guidelines**

- No applicable exposure limits available for product or components.

**Exposure controls****Engineering Measures/Controls**

- Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Personal Protective Equipment****Respiratory**

- In case of insufficient ventilation, wear suitable respiratory equipment. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

**Eye/Face**

- Wear eye/face protection - Chemical splash safety goggles, - Face shield.

**Skin/Body**

- Wear appropriate gloves. Wear protective clothing

**Environmental Exposure Controls**

- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.

**Section 9 - Physical and Chemical Properties****Information on Physical and Chemical Properties**

<b>Material Description</b>			
Physical Form	Liquid	Appearance/Description	Odorless liquid that may be dyed yellow.
Color	Clear, may be dyed yellow.	Odor	Odorless
Odor Threshold	No data available		
<b>General Properties</b>			
Boiling Point	212 F(100 C)	Melting Point/Freezing Point	No data available
Decomposition Temperature	230 F(110 C)	pH	1 10% solution
Specific Gravity/Relative Density	= 1.53 Water=1	Bulk Density	12.8 lbs/gal
Water Solubility	Soluble 100 %	Viscosity	No data available
<b>Volatility</b>			
Vapor Pressure	No data available	Vapor Density	No data available
Evaporation Rate	No data available		
<b>Flammability</b>			
Flash Point	No data available	UEL	No data available

LEL	No data available	Autoignition	No data available
Flammability (solid, gas)	No data available		
<b>Environmental</b>			
Octanol/Water Partition coefficient	No data available		

## Section 10: Stability and Reactivity

### Reactivity

- No dangerous reaction known under conditions of normal use.

### Chemical stability

- Stable

### Possibility of hazardous reactions

- Hazardous polymerization will not occur.

### Conditions to avoid

- Do not heat above 140°F.

### Incompatible materials

- Avoid contact with oxidizers. This material may be extremely hazardous in contact with chlorates or nitrates. This material is acidic in nature. The diluted material is corrosive to metal. Contact with hypochlorites (e.g., aqua ammonia) will generate heat.

### Hazardous decomposition products

- Combustion may yield oxides of carbon, nitrogen, and sulfur may be formed. Exposure to heat may liberate carbon dioxide and ammonia.

## Section 11 - Toxicological Information

### Information on toxicological effects

Components		
Monocarbamide dihydrogen sulfate (100%)	21351-39-3	<b>Acute Toxicity:</b> Ingestion/Oral-Rat LD50 • 350 mg/kg; Skin-Rabbit LD50 • >2 g/kg

GHS Properties	Classification
Respiratory sensitization	OSHA HCS 2012 • No data available
Serious eye damage/Irritation	OSHA HCS 2012 • Serious Eye Damage 1
Acute toxicity	OSHA HCS 2012 • Acute Toxicity - Oral 4
Aspiration Hazard	OSHA HCS 2012 • No data available
Carcinogenicity	OSHA HCS 2012 • No data available
Germ Cell Mutagenicity	OSHA HCS 2012 • No data available
Skin corrosion/Irritation	OSHA HCS 2012 • Skin Irritation 2
Skin sensitization	OSHA HCS 2012 • No data available
STOT-RE	OSHA HCS 2012 • No data available
STOT-SE	OSHA HCS 2012 • Specific Target Organ Toxicity Single Exposure 3: Respiratory Tract Irritation
Toxicity for Reproduction	OSHA HCS 2012 • No data available

## Potential Health Effects

### Inhalation

- Acute (Immediate)**                      • May cause respiratory irritation.
- Chronic (Delayed)**                      • No data available

### Skin

- Acute (Immediate)**                      • Causes skin irritation.
- Chronic (Delayed)**                      • No data available

### Eye

- Acute (Immediate)**                      • Causes serious eye damage.
- Chronic (Delayed)**                      • No data available

### Ingestion

- Acute (Immediate)**                      • Harmful if swallowed.
- Chronic (Delayed)**                      • No data available

#### Key to abbreviations

LD = Lethal Dose

## Section 12 - Ecological Information

### Toxicity

- Non-mandatory section - information about this substance not compiled for this reason.

### Persistence and degradability

- Non-mandatory section - information about this substance not compiled for this reason.

### Bioaccumulative potential

- Non-mandatory section - information about this substance not compiled for this reason.

### Mobility in Soil

- Non-mandatory section - information about this substance not compiled for this reason.

### Other adverse effects

- Non-mandatory section - information about this substance not compiled for this reason.

## Section 13 - Disposal Considerations

### Waste treatment methods

#### Product waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

#### Packaging waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

## Section 14 - Transport Information

UN number	UN proper shipping name	Transport hazard class(es)	Packing group	Environmental hazards
UN1760	Corrosive liquid, n.o.s. (Urea, sulfate)	8	III	NDA

**Special precautions for user** • None known.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** • Not relevant.

**Other information**

- Corrosive to mild steel. Do not ship in aluminum tanks.
- STCC# 2871431 Fertilizing Compounds (Manufactured Fertilizers), n.e.c., Liquid or Paste, or Plant Food, Liquid or Paste.

## Section 15 - Regulatory Information

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

**SARA Hazard Classifications** • Acute

Inventory		
Component	CAS	TSCA
Urea sulfate, also known as monocarbamide dihydrogen sulfate	21351-39-3	Yes

### United States

#### Labor

**U.S. - OSHA - Process Safety Management - Highly Hazardous Chemicals**

• Monocarbamide dihydrogen sulfate 21351-39-3 Not Listed

**U.S. - OSHA - Specifically Regulated Chemicals**

• Monocarbamide dihydrogen sulfate 21351-39-3 Not Listed

#### Environment

**U.S. - CAA (Clean Air Act) - 1990 Hazardous Air Pollutants**

• Monocarbamide dihydrogen sulfate 21351-39-3 Not Listed

**U.S. - CERCLA/SARA - Hazardous Substances and their Reportable Quantities**

• Monocarbamide dihydrogen sulfate 21351-39-3 Not Listed
