It's time for the US Senate to get the message! Let our Colorado Senators know that they should champion this bill.

Karl Ford: Wild Connections Board member and one of our climate change specialists.

Experience with Speed (aka Karl) the steep ups and downs, the majestic scenery, the bears, moose and wolves, the wildflowers, the rain, snow and cold, the heat and the dry, the wind, the thirst and the hunger, wildfires, injuries, along with the peace, the solitude and the ecstasy. Speed will donate \$1 to Wild Connections for each copy sold.

In Disturbed Soil Poems Across the West

Lee Patton

Lee Patton: Former Board member, long-time mapper and restoration project worker.

Lee's poems draw on his years of hiking and scrambling among the wild and not so wild places of the west. "Patton's sound-charged imagery dazzles as much as his metaphors startle. We hike trails, crags and canyons lit with 'sunflash, windlash/Drizzle so cold it sizzles'..." Patricia Holloway's review.

[In Disturbed Soil: Poems Across the West](#) is available for \$16.00 at Kelsay Books.

Curt Nimz: Long time member, hiker and our go-to-expert on wild flowers and stunning scenic views of wild areas.

These painted ladies on a musk thistle were taken in Wildcat Canyon. Painted ladies are common here, and unfortunately so are invasive musk thistles.

Photos like this help Wild Connections plan workdays to keep thistle at bay. Curt generously provides his photos for Wild Connections' publications.
