TO INCREASE THE NUMBER OF CULTUALLY RESPONSIBLE BLACK ENGINEERS WHO EXCEL ACADEMICALLY, SUCCEED PROFESSIONALLY, AND POSITIVELY IMPACT THE COMMUNITY IN OUR PROGRAMS.
Dear Potential Sponsor,

My name is Said Said Ahmed, and I am the president of the National Society of Black Engineers chapter at the George Mason University, in Fairfax, Virginia.

NSBE@GMU is a collegiate chapter. The overall mission of the National Society of Black Engineers is “to increase the number of culturally responsible Black Engineers who excel academically, succeed professionally and positively impact the community.”

We envision a world in which engineering is a mainstream word in homes and communities of color, and all Black students can envision themselves as engineers. In this world, Blacks exceed parity in entering engineering fields, earning degrees, and succeeding professionally.

As a collegiate organization the National Society of Black Engineers strives to accomplish the following objectives for our organization:
- To stimulate and develop student interest in the various engineering disciplines.
- Strive to increase the number of minority students studying engineering at both the undergraduate and graduate levels.
- Encourage members to seek advanced degrees in engineering or related fields and to obtain professional engineering registrations.
- Promote public awareness of engineering and the opportunities for Blacks and other minorities in that profession.
- Function as a representative body on issues and developments that affect the careers of Black Engineers.

In an effort to solve some of these challenges, we’re consistently organizing recruiting events, academic and corporate workshops and regional and national conventions. We are so proud of what we’ve already achieved in the past, but we want to make this one even better. With the costs of the Regional Conference, the National Convention, Meetings, Workshops and Activities are looking at an estimated cost of $16,575. We need the support of generous businesses like you to help our organization strive to accomplish its objectives and raise the money.

I’m writing to ask you to become a sponsor for NSBE@GMU. As a thank you, NSBE@GMU would like to offer specified incentives, which we present below.

I hope to hear from you soon. Thank you in advance for your generosity.

Sincerely,

Said Said Ahmed
President of NSBE@GMU
Dear Potential Sponsor,

My name is Jazzmin Robinson. I am an Electrical Engineering baccalaureate scholar at George Mason University, currently serving as the Vice President of the National Society of Black Engineers Collegiate Chapter at George Mason University. I am a senior currently attending George Mason University as a first-generation college student majoring in electrical engineering where I have built relationships through several different organizations including the National Society of Black Engineers. I have held several leadership positions on the Collegiate Chapter Executive Board including the Public Relations Chair and Secretary.

I acquired and strengthened several leadership skills from my previous leadership positions and internship experiences. I am eager to continue acquiring new leadership skills and use my leadership skills in this position. As the 2020-2021 George Mason University Collegiate Chapter’s Vice President, I am committed to communicating objectives and promoting innovation. We are intentional with supplementing our education with various professional and individual experiences that will lead to our professional success.

As a chapter we support and are dedicated to upholding the vision, mission and objectives of the National Society of Black Engineers. NSBE’s vision states, “We envision a world in which engineering is a mainstream word in homes and communities of color, and all Black students can envision themselves as engineers. In this world, Blacks exceed parity in entering engineering fields, earning degrees, and succeeding professionally.” The mission of the National Society of Black Engineers is “to increase the number of culturally responsible Black Engineers who excel academically, succeed professionally and positively impact the community.”

NSBE will grow due to the increased productivity in managing goals and accomplishments; investing in the future of the organization and consistency in winning results. As a delegating body we will sustain and prioritize all obligations underlined within our National Constitution. This goal will be accomplished through our determination and hard work to maintain professionalism through effective business communication skills.

Thank you for your time and consideration of our Sponsorship Packet. We appreciate the ongoing support from such a prestigious company. If your company approves this year’s sponsorship for the National Society of Black Engineers Collegiate Chapter at George Mason University, I look forward to discussing future professional engagements.

Thanks for your consideration,

Jazzmin Robinson

ABOUT US
ABOUT NSBE

The National Society of Black Engineers (NSBE) is a 501(c)(3) nonprofit organization dedicated to the academic and professional success of African American engineering and technical students and professionals. NSBE offers its members leadership training, professional and academic development, mentoring opportunities, community service outreach programs, and scholarships.

Organization: NSBE is the largest student-managed association, comprised of more than 400 chapters, nationwide and overseas. These chapters are geographically divided into six regions and are governed by a national executive board.

Membership: NSBE has 35,000 collegiate and professional members. Its membership has also grown to include over 3,600 pre-college students in addition to chapters in Africa, Asia, Canada, the Caribbean, and Europe.

Programs: NSBE offers programs that are designed to promote Technical Excellence, Academic and Professional Development, Leadership Development and Pre-College Initiatives. NSBE programs and activities include career fairs, graduate school fairs, technical research projects, academic competitions, scholarships, and awards.

Conferences: NSBE annually hosts 18 regional conferences, a national leadership training institute, an international conference and a national convention, which draws close to 10,000 attendees.

ABOUT NSBE@GMU

Founded in 1992, GMU-NSBE is the premier organization for African American students pursuing STEM degrees at George Mason University. Additionally, GMU-NSBE is a proud affiliate of Region Two—whose members represent more than 60 Chapters throughout Pennsylvania, Delaware, Maryland, Washington, D.C., West Virginia, Virginia, North Carolina, and South Carolina. Through the support of the national organization, the Volgenau School of Engineering at George Mason University, and corporate sponsorship, NSBE-GMU upholds our mission statement as well as the national directives.
At George Mason University, we pride ourselves in being a part of the largest student-run organization in the country. Furthermore, we seek to fulfill the NSBE mission statement: to increase the number of culturally responsible black engineers who excel academically, succeed professionally, and positively impact the community in our programs.

The acronym NSBE, represents the National Society of Black Engineers. NSBE was founded at Purdue University in 1975 by (the late) John W. Logan Jr., Edward A. Coleman, George A. Smith, Stanley L. Kirtley, Brian Harris, and Anthony Harris. Their nickname is “The Chicago Six”. With only 48 students from 32 schools, the first National Conference was held at Purdue University in 1975.

The NSBE Torch symbolizes our everlasting burning desire to achieve success as engineers in our present society. The lightning bolts represent the striking impact that will be felt upon society and industry as a result of the contributions and achievements made by the National Society of Black Engineers.

Today, the NSBE headquarters in Alexandria, VA represents more than 33,000 members. NSBE is now one of the largest student-managed organizations in the country. It is comprised of more than 450 chapters on college and university campuses, 75 Alumni Extension chapters nationwide and 75 Pre-College chapters. These chapters are geographically divided into six regions.
New and returning members will get the chance to know more about NSBE, our mission for the new academic year, upcoming events, how to become involved with the organization, and be able to meet and network with those in attendance.

Our Chapter facilitates study halls for members three times a week. This gives member a reliable location to study each week, a way to collaborate with other NSBE members, and promotes an environment for academic success.

We offer our members different development workshops throughout the academic year which includes resume reviews, practice interviews, and networking events. These events are for our members to hone their professional skills so that they can be successful after graduation.

We offer our members different development workshops throughout the academic year which includes resume reviews, practice interviews, and networking events. These events are for our members to hone their professional skills so that they can be successful after graduation.

<tr>
<th>REGION II LEADERSHIP CONFERENCE</th>
<th>ZONE SUMMITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Regional Leadership Conference is targeted specifically towards Chapter and Professional leadership. Attendees receive three days of position-focused training, professional and leadership development, and an opportunity to network with peers throughout the region. The goal is that leaders leave RLC with the knowledge and tools to be successful as the Model Region and a connection to the NSBE mission. With these new skills, attendees will be able to take their chapters to the next level as they all strive to meet the new regional objectives: Lead with Purpose and Operational Efficiency.</td>
<td>Zone summits are a great time for chapters within each zone to get to know each other as well as participate in activities and workshops catered to that specific zone.</td>
</tr>

<table>
<thead>
<tr>
<th>FALL REGIONAL CONFERENCE</th>
<th>ANNUAL CONVENTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Leadership Conference [FRC] is our region’s very own mini-Convention before the entire Society reconvenes for Annual Convention in San Antonio, TX in March. During FRC, you can expect to see revolutionary programming and workshops that will focus on cultural development, financial literacy, leadership development, academic success and much more! Additionally, FRC will see opportunities for Region II’s membership to further their professional careers at our Career Fair where they will be able to connect with companies seeking interns and full-time employees.</td>
<td>The Annual Convention showcases Black students and professionals who have a passion for STEM, who are high achievers in these fields and who are channeling their dedication to advance their communities and society at large. #NSBE46 will attract more than 10,000 aspiring and practicing engineers, educators, representatives of more than 200 academic institutions, government agencies, corporations and nonprofit organizations.</td>
