

Kiwi UL Printers

The industry's choice for in-line, high speed imprinting of wallboard

For more than 30 years, Kiwi heavy-duty U.L. Flexographic Printers have been the clear choice for providing trouble free, quality printing on wallboard and related materials. With today's increased demand for higher speeds and improved quality, Kiwi has again met the challenge with a number of new equipment features and options. Let us solve your new production requirements with our line of printers that are now rated at speeds of up to 1000 feet per minute.

Features

- ◆ Top, bottom or vertical mounting
- ◆ Standard print widths up to 4 1/2"
- ◆ Standard cylinder sizes up to 48"
- ◆ Standard speed 150 fpm (higher available)
- ◆ Enclosed counter
- ◆ Sealed ball bearings
- ◆ Heavy-duty construction

Options/Supplies

- ◆ Enclosed reversed angle doctor blade inking system for high-speed lines of up to 1000 fpm
- ◆ Recirculating ink pump system
- ◆ Anilox Ink rollers
- ◆ Fulcrum Drive
- ◆ DC motor drive speed matching system and shaft encoder
- ◆ Mounted rubber U.L. print plates
- ◆ Magnetic backed U.L. print mats
- ◆ Kiwi Series #4 printing inks

With a fraction of the maintenance and operating costs required by in-line ink jet systems, the Model 816THS Flexographic Printer combines quick changeovers and reliable operation on a daily basis.
