SWIMMING IN QUALITY AND STYLE®

FACT SHEET

The Ultimate™

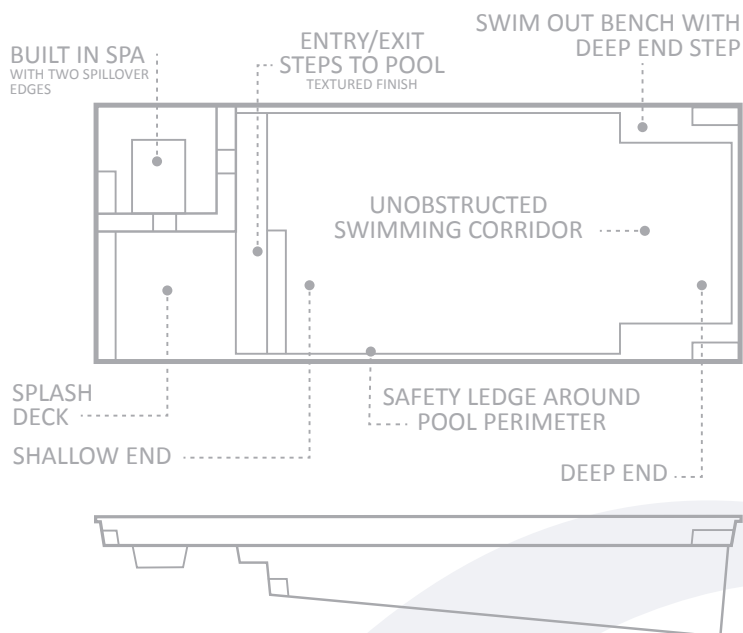

When Leisure Pools® set out to create The Ultimate™ swimming pool range, we wanted a design that would meet and exceed the homeowner's expectations of what a pool should be.

Designers began with the idea of what would be considered fashionable and chic, yet versatile with practical, highly sought-out features. The Ultimate™ lives up to its name in size and convenience. Square angles and straight lines define a pool that boasts a large, open corridor with a gradual slope that can accommodate a variety of activities, from the avid swimmer looking for an area to exercise and swim laps to the perfect arena for playing water games with family and friends.

There is no feature more appealing than a built-in spa that integrates seamlessly into the overall pool design. The built-in spa has the option to either run off the pool filtration system or operate through a separate filtration system and heating unit. We even added some clever overflow channels with two spillover ledges, through which water cascades into the pool, creating a beautiful waterfall effect.

There was only one feature left to add to ensure this pool reached its ultimate potential – a large, shallow splash deck on which to lounge in the sun or play with the little ones. These ledges are one of the most popular innovations trending in the swimming pool industry today.

Leisure Pools® is confident you will find this pool to be the ultimate addition to your backyard.
