

## What is a Dukane European Facial?

**Brush Cleansing**- Soft, rotating facial brushes gently cleanse and buff away make up, surface oils and impurities.

**Toning**- A gentle mist falls to the skin and clears away remaining traces of cleanser with a pH friendly value.

**Steaming**- Soothing, warm vapor helps to eliminate impurities and moisten the skin.

**Massage**- In addition to the relaxing effects, trained hands exercise muscles, maintain muscle tone, stimulate blood circulation and aid in keeping skin healthy and muscles firm.

**Vacuuming**- Light suction helps draw oils and impurities to the surface of the skin for removal.

**Exfoliating**- To clear away dulling surface flakes, unclog pores, stimulate skin renewal and smooth skin.

**Customized Masks**- Individually formulated masks accommodate the skin's needs.

**Steamed Towels**- For warmth and cleansing.

**Moisturizing**- Hydrating creams prevent moisture loss, balance, protect and prepare the skin for make-up.

Good News-Your skin will benefit every time you receive

a facial, whether once a month, or for special occasions!

## Omega+ Facial .....\$75

A favorite! Looking for an instant difference in your complexion? Try the most exciting facial treatment we've seen in years. We will steam, brush, massage, vacuum, tone and moisturize your complexion. In addition, we will do an Omega peel. The superior performance of this gentle, high-tech peel/mask allows you to feel the dead skin and impurities roll off your skin in minutes. A 45 minute pampering experience.
