INTERCHANGE Numbers 14,15,16,17.

In addition to the thirteen on-field players, there are a maximum of four substitute players who start the game on their team's bench. Usually, they will be numbered **14, 15, 16 and 17**. Each player normally keeps their number for the whole game, regardless of which position they play in. That is, if player number 14 replaces the fullback, he will wear the number 14 for the whole game, and not change shirts to display the number 1.
