MONTAGE IMAGERV

IMAGERY FOR ALL APPLICATIONS

Andrew is a Creative thinker with a love of the "hands on" approach to problem solving and lives by the phrase, "Capture it all, create the rest". Put simply if it's not there to capture, create it.

He is a strong arts and design professional within the Visual communications industry focusing on Photography, Animation, Interactive Technology, Video Graphics and Special Effects, earning his degree from the University of Newcastle.

Skilled in Photography, Adobe Creative Suite, Graphic Design and numerous Life Skills, he has a long history in the Entertainment Industry as a performer and has also acquired Trade qualifications as a Carpenter/Joiner.

Whether building a set, branding an event or creating memorable images, one thing remains the same, my commitment to deliver the highest quality artifacts possible.

You can't earn a diploma for experience. It is something that can only be achieved through the passage of time. The payoff is a wealth of knowledge about life that is unique to us all.

In the immortal words of The Bare Naked Ladies, "its all been done before" however, that does not mean it can't be tweaked, refreshed and re-created to suit todays or future trends.
