Thank you for your interest in completing Conduct in-service safety testing of electrical cord connected equipment and cord assemblies. This unit of competency supports technicians working in inspection and testing of electrical equipment, commonly called (Test & Tag). After completing this training, the student will have the required skills and knowledge to inspect, test, and tag extension leads, power tools, portable RCD's and all electrical equipment commonly found in the workplace.

Work health and safety legislation requires all electrical plugin equipment in the workplace to be inspected and tested by a competent person. With the ongoing cost of compliance to businesses, employees with this skill set are valuable in the workplace.

Both the below units make up this accredited course;
UEERL0003 Conduct in-service safety testing of electrical cord connected equipment and cord assemblies (Release 1) -Basic electrical principles and concepts.

- Inspect electrical equipment

- Test electrical equipment using a portable appliance tester

- Action Resulting from Inspection and test

UEECD0007 Apply work health and safety regulations, codes and practices in the workplace (Release 1)

- Prepare to enter a work area

- Apply safe working practices

- Follow workplace procedures for hazard identification and risk control

**Licensing/Regulatory Information**

Work in this area must be completed according to relevant legislative, industry, customer and organisational requirements, including work health and safety (WHS) policies and procedures.

Different states and territories may have regulatory mechanisms that apply to these units. Students are advised to check for regulatory limitations.

It is essential for Axiom Compliance Learning to provide quality training and a reduced risk of the COVID-19 virus. We have developed training resources such as an online zoom course, documentation, interactive templates, procedural and instruction videos, to facilitate this training online or face to face, whichever is the preferred learning.

Payment not required when enrolling; we will contact the enrolee and email an invoice.
Payment of the invoice will secure placement and commence the online component.
This course is in high demand; enrol to ensure placement.

Link to training dates [Axiom Compliance Learning Training Dates -](#) choose the date and complete enrolment.

**Course Recognition**

UEERL0003  Conduct in-service safety testing of electrical cord connected equipment and cord assemblies is a Nationally Recognised Training Course, recognised throughout Australia by industry bodies, employers, accreditation schemes, and licencing applications.

**Procedures after enrolment**

- After enrolling online, we will contact the student to discuss their suitability for training.
- Enrolment confirmation will be emailed, including the invoice.
- Following the receipt of payment, we will confirm receipt via email, including the login details to start training.
- Once the student has logged into our online learning platform, they can access course documentation, instructions, procedural videos & resources. The student has then commenced the course.

**3 months** to complete from the training date.

**Extension** available for $100 for 2 months.

**Zoom**

- Students will receive a **zoom** invitation email and a text message a few days before the scheduled zoom training.

- Students will have access to their trainer via zoom, either by phone or computer.

- The level of participation is entirely up to the student.

**Face to Face**

- Students will receive correspondence via email and a text message containing **face**-to-**face** course and venue information a few days before.

**Student support**

- Student coordinators are available to support the student with:

  o Login details, training resources, submissions

  o Assistance with online tutorials and quizzes

  o Assistance with assessment tasks

**Completion**
A Statement of Attainment upon successful completion will be issued.
If units are not completed within **3** months, a Statement of Attainment for completed units will be issued.
**CPD** points, Nominal hours=16

**Program Outline and Assessments**

This course will be delivered using blended learning, which can utilise any combination of the following: face-to-face, one-on-one and group discussions utilising Zoom, online workbooks, assessments, interactive templates and video tutorials. The professionally presented reference material and resources help students develop their knowledge of the subject. Training is sequenced to allow a logical progression.

The activities are clearly explained and always relate to the course and industry information, allowing the assessor to ensure that students can apply their knowledge and skills.

Written Reports: Using templates and available resources, students will produce a range of written service records, based on real testing and inspections for assessment.

Tasks: Students will undertake a range of tasks that will require the creation of various documents, service reports, and outcomes typical in the industry.

Knowledge Test: Students will undertake online knowledge tests; completion of tests is required. Students may research the answers from the course training materials and notes, and relevant references.

Computer Skills: Students need to be familiar with electronics/computers and have the ability to use our online learning portal to access, download and upload course material for the online component of the course and complete online knowledge assessments.

**Venue/Dates & Times**

Due to covid19, Axiom Compliance Learning is offering the majority of our courses online and zoom enables safer training options for those who feel comfortable with online and zoom training.

**Duration** is four hours.

**Zoom** training sessions have limited numbers to facilitate quality training.

**Venue**: Axiom Compliance can provide face-to-face training in Newcastle, Sydney, Byron Bay, and Brisbane with the capability of providing training onsite for one or multiple students throughout Australia.

**How to enrol?**

Dates on request or see website  www.axiomcompliancelearning.com.au

Enrol online- Axiom Compliance Learning Training Dates- choose the date and complete enrolment.

**Student Information**

Detailed student information is available within our Student Handbook, supplied with the enrolment confirmation, also on our website. This booklet contains essential information about a student's rights and obligations, such as their right to privacy, a safe training environment, and the right to complain or appeal an assessment decision. Persons applying for enrolment must have an opportunity to review this information first.
